1) Operating profit is a measure which we believe highlights the underlying profitability of our operation. For a description on how we measure operating profit and a reconciliation to profit before taxes and minorities, see analysts' presentation 'Group financial results 2004', section 'Additional information' (page 44). The document is available to download at [www.allianz.com/investor-relations](http://www.allianz.com/investor-relations).

2) Operating cost-income ratio = (benefits + expenses) / (net premiums earned + current investment income). For a detailed definition see analysts' presentation, Appendix/Glossary, page G7.
