28	Notes to the Consolidated Financial Statements

---

The following discussion is based on our consolidated financial statements and should be read in conjunction with those statements. We evaluate the results of our Property-Casualty, Life/Health insurance, Banking and Asset Management segments using a financial performance measure we refer to herein as "operating profit". We define our segment operating profit as earnings from ordinary activities before taxation, excluding, as applicable for each respective segment, either all or some of the following items: net capital gains and impairments on investments, net trading income, intra-Allianz Group dividends and profit transfer, interest expense on external debt, restructuring charges, other non-operating income/(expense), acquisition-related expenses and amortization of goodwill.

While these excluded items are significant components in understanding and assessing our consolidated financial performance, we believe that the presentation of operating results enhances the understanding and comparability of the performance of our operating segments by highlighting net income attributable to ongoing segment operations and the underlying profitability of our businesses. For example, we believe that trends in the underlying profitability of our segments can be more clearly identified

without the fluctuating effects of the realized capital gains and losses or impairments on investment securities, as these are largely dependent on market cycles or issuer specific events over which we have little or no control, and can and do vary, sometimes materially, across periods. Further, the timing of sales that would result in such gains or losses is largely at our discretion. Operating profit is not a substitute for earnings from ordinary activities before taxation or net income as determined in accordance with IFRS. Our definition of operating profit may differ from similar measures used by other companies, and may change over time. For further information on operating profit, as well as the particular reconciling items between operating profit and net income, see Note 3 to the Consolidated Financial Statements.

In the following discussion, we analyze the Allianz Group's consolidated results of operations for the three months ended March 31, 2005 as compared to March 31, 2004 using operating profit and net income as the relevant performance measures, as permitted under IFRS and as presented in our German annual report for the year 2004.

---

# Executive Summary

## A successful start in 2005.

- \_ Our earnings power continued to strengthen, primarily driven by operating profit, but also positively affected by the discontinuance of amortization of goodwill due to a change in accounting under IFRS (Q1 2004: € 294 million). Our net income rose to € 1.2 billion.
- \_ Operating discipline remains key to the way we execute our business. We achieved a significant increase in our operating profit, which rose by € 0.6 billion to € 1.8 billion. In our Property-Casualty segment, our combined ratio was lowered by 3.7 percentage points to 92.1%. At Dresdner Bank, both our cost-income ratio and loan loss provisions were reduced, and in our Asset Management segment our cost-income ratio of 60.9% is strong, both in historical terms and compared to our competitors.
- \_ We increased our total revenues by € 1.0 billion. Particularly in our Life/Health and Asset Management segments, which cater to the promising pension and wealth accumulation market. Internal growth was strong with increases in Life/Health statutory premiums of 10.9%, operating revenues from Asset Management of 12.5% and growth in Asset Management's third-party assets of 6.7%.
- \_ Dresdner Bank is well on track to earn its cost of capital in 2005 with operating profit of € 216 million and a contribution of € 233 million to our results in Q1, despite the slight decline in Banking operating revenues.
- \_ Shareholders' equity increased by € 3.9 billion to € 41.6 billion, further strengthening our capital base.

## Allianz Group's Consolidated Results of Operations

The continued execution of our "3+One" program through our focus on operating discipline and increasing our competitive strength on a sustainable basis resulted in a quarter of **continued earnings growth**. We were successful in increasing our operating profit by € 0.6 billion to € 1.8 billion and our net income reached € 1.2 billion (Q1 2004: € 0.6 billion).

Q1 carried forward our initiative of **managed growth**, increasing our total revenues by € 1.0 billion, or 3.8%, to € 28.3 billion. Excluding effects from foreign currency translation and changes in scope of consolidation (or "internal growth"), our total revenues increased by 5.1%.

**Property-Casualty** Gross written premiums were fairly constant with only a slight decline of 1.4% and positive internal growth of 1.0%, as we continued to seek opportunities that offered a profitable correlation between premium rates and risks and were willing to forego premium growth in certain markets where this objective could not be achieved. Additionally, and due to ongoing favorable claims development, rate increases were not necessary in some markets.

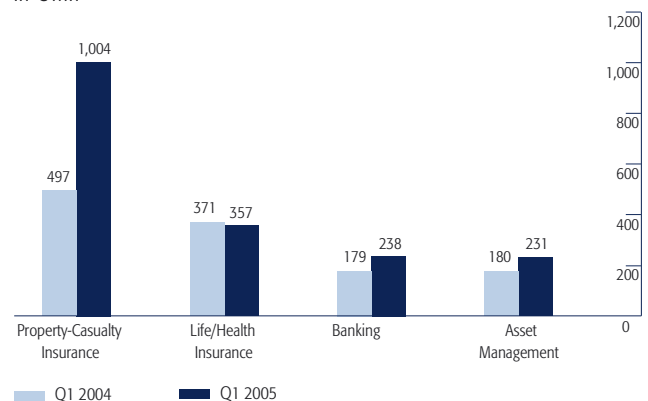

**Life/Health** Our Life/Health segment experienced positive growth with an increase in statutory premiums of 9.6% to € 11.8 billion, particularly in Germany, Italy and in the United States. Internal growth of statutory premiums amounted to 10.9%.

**Asset Management** Our Asset Management segment demonstrated its strong market position as one of the world's five largest asset managers by significantly increasing total assets under management and net inflows of third-party investments by 5.9% and 88.9% to € 1,133 billion and € 17 billion in Q1, respectively, leading to positive operating revenue growth of 8.6% to € 591 million. Internal growth of our operating revenues was also strong at 12.5% in Q1.

**Banking** Operating revenues declined slightly by 1.3% and internal growth of (0.8)%, stemming primarily from a 7.8% decline in net fee and commission income. However, both net interest income and net trading income increased 3.2% and 4.2%, respectively.

### Operating profit

in € mn

Q1 demonstrated our further commitment to **continued operational discipline**, as operating profit improved by € 0.6 billion to € 1.8 billion.

**Property-Casualty** We succeeded in significantly reducing our combined ratio to 92.1% in Q1, a 3.7 percentage point improvement (Q1 2004: 95.8%) as a result of our disciplined underwriting and pricing practices, as well as stringent expense control. This positive development increased operating profit to € 1.0 billion in Q1 (Q1 2004: € 0.5 billion).

**Life/Health** Our statutory expense ratio improved considerably by 2.6 percentage points to 6.6%, primarily resulting from lower net acquisition costs and administrative expenses. However, this positive development was largely driven by the regular unlocking of assumptions within our deferred policy acquisition cost asset. Operating profit declined slightly by 3.8% to € 0.4 billion primarily due to increased insurance benefits which rose by 9.0% to € 6.5 billion, but is fully in line with our 2005 expectations.

**Banking** Net loan loss provisions were reduced significantly by 31.1%. Administrative expenses also declined by 2.9%. As a consequence of these positive developments, our banking segment reported operating profit of € 238 million (Q1 2004: € 179 million), a 33.0% improvement.

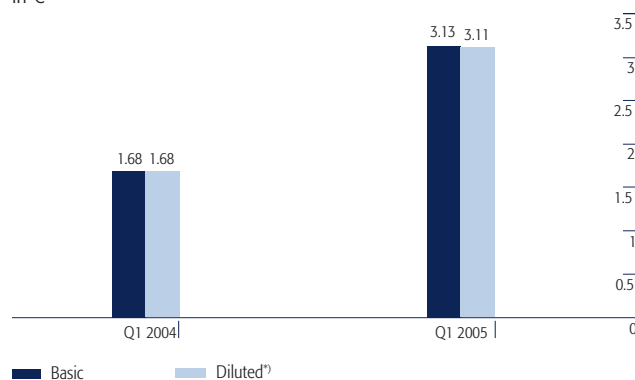

**Asset Management** We succeeded in significantly reducing our cost-income ratio by 6.0 percentage points to 60.9% (Q1 2004: 66.9%), primarily as a result of increased operating revenues brought about by an increase in assets under management by € 62.7 billion and a reduction in operating expenses. These positive developments led to an improvement in operating profit of 28.3%, amounting to € 231 million (Q1 2004: € 180 million).

Our **strengthened earnings power** was also reflected in our consolidated **net income**, which rose by € 567 million to € 1.2 billion (Q1 2004: € 0.6 billion), inclusive of the positive impact brought about by the discontinuance of amortization of goodwill due to a change in accounting under IFRS (Q1 2004: € 294 million). Net capital gains and impairments, after policyholders' participation, declined slightly by € 87 million to € 631 million in Q1. These capital gains were mainly attributable to the sale of our shareholdings in MAN AG and Gecina S. A. Restructuring charges declined 61.5% to € 5 million (Q1 2004: € 13 million), due primarily to the absence of restructuring charges at Dresdner Bank in Q1. Interest expense on external debt from our holding activities amounted to € 257 million (Q1 2004: € 200 million), an increase of 28.5% due primarily to interest expense for our subordinated bonds with a volume of € 1.5 billion and € 1.4 billion issued in February 2004 and January 2005, respectively. Due to the changes in fair value of derivatives associated with our "All-in-one" capital market transactions, a pre-tax charge to earnings of € 17.6 million was incurred. These developments resulted in earnings from ordinary activities before taxes and minorities of € 2.1

billion in Q1 (Q1 2004: € 1.3 billion). Our consolidated tax expense increased by € 0.2 billion to € 0.6 billion, largely as a consequence of improved operating profitability, representing an overall effective income tax rate of 26.9% (Q1 2004: 26.4%). Preferable tax treatment on realized gains from the aforementioned sale of certain shareholdings limited our tax expense and the impact on our effective tax rate. Minority interests in earnings remained fairly constant at € 0.3 billion.

## Allianz Group's Consolidated Assets, Liabilities and Shareholders' Equity

In Q1, we made further progress in **protecting and strengthening our capital base**. Our shareholders' equity increased by € 3.9 billion to € 41.6 billion at March 31, 2005 (December 31, 2004: € 37.7 billion). This increase resulted from our strong net income for the quarter as well as the sale of treasury stock and the issuance of warrants on Allianz AG shares in connection with our "All-in-One" capital market transactions.

### Shareholders' equity

in € mn

- Minority interests in shareholders' equity
- Unrealized gains/losses
- Retained earnings (inclusive of foreign currency translation adjustments)
- Paid-in capital

<sup>1)</sup> Effective January 1, 2005, and as a result of IAS 1 (revised), minority interests in shareholders' equity was reclassified into shareholders' equity as of December 31, 2003.

Total assets and liabilities decreased in Q1 by € 7.5 billion and € 11.4 billion, respectively, from December 31, 2004. These decreases resulted primarily from declines in loans and advances to banks as well as liabilities to banks, reflecting reduced volumes of repurchase and reverse repurchase operations at Dresdner Bank. However, total assets within our Property-Casualty and Life/Health segments have increased 3.3% and 1.5%, respectively.

The following table presents the Allianz Group's consolidated balance sheets as of March 31, 2005 and December 31, 2004, and the respective changes:<sup>1)</sup>

<b>ASSETS</b>	March 31,	December 31,	Change		<b>SHAREHOLDERS' EQUITY AND LIABILITIES</b>	March 31,	December 31,	Change

<sup>1)</sup> Beginning January 1, 2005, under IFRS, various existing accounting standards changed and additional new accounting standards became effective, both of which impacted the Allianz Group's consolidated financial statements prospectively, and to a certain extent, retrospectively, requiring restatement. For further information concerning the impact of these accounting standards, see Note 2 to the consolidated financial statements.

## Ratings

As a provider of financial services, our capital strength is an important asset. Allianz AG enjoys strong ratings with all major rating agencies. In Q1, these ratings remained unaltered from December 31, 2004. Standard & Poor's (S&P) affirmed its "AA-" long-term insurer financial strength and counterparty credit ratings. A.M. Best continued to rate Allianz AG as "A+", its second highest rating category. Despite the negative outlook of both agencies, they did recognize our progress in strengthening operating profitability.

	Standard & Poor's	Moody's	A.M. Best
Insurer financial strength	AA-	Aa3	A+
Outlook	Negative	Stable	Negative
Counterparty credit	AA-	not applicable	aa-
Outlook	Negative		
Senior unsecured debt	AA-	Aa3	aa-
Outlook		Stable	Negative
Subordinated debt	A	A2	a+/a <sup>*)</sup>
Outlook		Stable

<sup>\*)</sup> Ratings vary on the basis of maturity period and terms.

perpetual bond, it is callable by Allianz AG for the first time in 2017. Attached to the bond are 11.2 million warrants on Allianz AG shares with a maturity of three years.

Reduction of non-strategic assets by Dresdner Bank: Dresdner Bank accomplished a further step in its strategy of reducing its non-strategic equity holdings. Dresdner Bank sold 17.2 million Allianz AG shares to an investment bank. This investment bank placed these shares in the market in the form of a Mandatory Exchangeable. This structure enabled us to benefit from a portion of Allianz AG's future share price appreciation.

## "All-in-one" Transactions

On January 28, 2005, we successfully completed our "All-in-one" capital market transactions. The All-in-one capital market transactions 1) reduced the Allianz Group's equity gearing; 2) helped to deleverage the Allianz Group; and 3) helped Dresdner Bank to further reduce its non-strategic asset portfolio.

Reduction of equity gearing: In order to reduce our exposure to equities, we issued a three-year index linked exchangeable bond of € 1.2 billion. The redemption value of this security, BITES (or "Basket Index Tracking Equity-linked Securities"), is linked to the performance of the Deutsche Boerse's DAX index. During the three-year term of this instrument, we may choose to redeem the bond with shares of BMW AG, Munich Re or Siemens AG.

Deleveraging from rating perspective: We refinanced part of our 2005 € 2.7 billion maturing bonds, of which €1.7 billion matured during Q1 and a further 1.0 billion will mature in Q3, through the issuance of a subordinated bond in the amount of €1.4 billion. While this is a

# Property-Casualty Insurance Operations

**We continued to focus on profitable growth and significantly reduced our combined ratio to 92.1%.**

- \_ In property-casualty insurance, we continued to focus on profitable growth through selectively increasing our business volume where risk-adequate premiums could be attained. Overall, our gross premiums written remained fairly constant with a slight decline of 1.4% to € 14.2 billion and internal growth of 1.0% in Q1.
- \_ We succeeded in reducing our combined ratio by 3.7 percentage points to 92.1% in Q1. Net current income from investments rose by € 163 million to € 0.8 billion in Q1. As a result of these positive developments, operating profit increased significantly by 102.0% to € 1.0 billion in Q1.
- \_ Non-operating results decreased by 21.0% in Q1, due to lower net realized gains from the sale of investments.
- \_ As a result of our continued efforts, we were able to increase net income significantly by € 199 million to € 753 million in Q1.

## Earnings Summary

Gross premiums written at March 31, 2005 by region<sup>\*)</sup>  
in %

<sup>\*)</sup> After elimination of transactions between Allianz Group companies in different geographic regions and different segments.

### Gross premiums written

Our property-casualty insurance segment's gross premiums written in Q1 decreased by € 201 million, or 1.4%, to € 14,177 million from € 14,378 million one year ago. This development was primarily caused by the deconsolidation of our Taiwanese, Chilean and Canadian Property-Casualty operations. However, based on internal growth, gross premiums written increased by 1.0%. Positive developments were experienced by Allianz Suisse Versicherungsgesellschaft AG (or "Allianz Suisse") and Allianz Risk Transfer in Switzerland and Allianz Seguros in Spain, where gross premiums written increased by 16.8% and 7.9%, respectively. Within Allianz Suisse and Allianz Seguros, these favorable developments were both equally driven by growth in our automobile business. The growth within Allianz Risk Transfer was due primarily to a large,

short-term contract that triggered additional gross premiums written in Q1. Our credit insurance business, provided through Euler Hermes S. A., also experienced growth of 8.4% in Q1. These increases were offset in part by decreased gross premiums written at Sachversicherungsgruppe in Germany, resulting from the effects of a more selective underwriting policy and the increased use of "no claims bonuses" in motor liability. Additionally, and due primarily to the commutation of an Allianz Group internal life reinsurance contract, gross written premiums decreased at Allianz AG. Gross premiums written at AGF IART in France also declined as a result of the non-renewal of two large contracts within our industrial business. These developments reflect our strategy of selective and profitable growth, which we continue to pursue in our property-casualty segment.

### Operating profit

in € mn

## Operating profit

Our property-casualty insurance segment's operating profit improved significantly with an increase of 102.0% to € 1,004 million in Q1 as compared to € 497 million in the prior year period, mainly reflecting an improved underwriting result. Our **loss ratio** declined by 3.9 percentage points to 66.5% in Q1, driven primarily by our disciplined underwriting and pricing practices. Major contributors to this positive development stemmed from Fireman's Fund in the United States where lower than expected natural catastrophes and the adherence to a strict underwriting discipline have been beneficial, as well as AGF IART in France where an ongoing improvement in claims frequency and the transition to a centralized claims handling process have proved rewarding. This marked improvement in operating profit was achieved despite two loss events arising from the storm which struck Northern Europe in January, and from the Windsor Tower fire in Madrid in February. Our **expense ratio** increased only slightly to 25.6% in Q1 as compared to 25.4% in the prior year period. Overall, our **combined ratio** improved by 3.7 percentage points to 92.1% in Q1 (Q1 2004: 95.8%).

## Net income

**Net capital gains and impairments on investments** decreased by € 210 million to € 448 million in Q1 as compared to € 658 million in the prior year period, which included significant net capital gains from the sale of certain shareholdings, namely Munich Re, Beiersdorf and Deutsche Bank. However, in Q1 we sold our shareholdings in MAN AG and Gecina S. A. **Net trading income/(expenses)** improved significantly to a loss of € 3 million in Q1 as compared to a loss of € 34 million in the prior year period, despite a € 15 million loss from the change in fair value of derivatives associated with our "All-in-one" capital market transactions in Q1. This improvement was primarily driven by non-recurring significant losses incurred on certain freestanding derivatives in the prior year period. **Intra-group dividends and profit transfers** as well as **interest expense on external debt** amounted to € 146 million and € 257 million in Q1 as compared to € 94 million and € 200 million in the prior year period, respectively. The 28.5% increase in interest expense on external debt from our holding activities was due primarily to interest expense for our subordinated bonds with a volume of € 1.5 billion and € 1.4 billion issued in February 2004 and January 2005, respectively. Net income was also positively affected by the elimination of the **amortization of goodwill** brought about by a change in accounting under IFRS, which amounted to € 95 million in the prior year period. Due to improved operating profitability, **tax expense** increased by € 208 million to € 397 million compared to the prior year period. Similarly, **minority interests in earnings** increased by € 11 million to € 188 million, driven in particular by the improved performance of our French operations. Overall, **net income** increased markedly by € 199 million to € 753 million in Q1.

## Property-Casualty Operations by Geographic Region

The following table sets forth our property-casualty gross premiums written and earnings after taxes before minority interests in earnings and excludes amortization of goodwill, applicable only for 2004, which we refer to herein as “earnings after taxes and before minority interests”, by geographic region. Consistent with our general practice, gross premiums written and earnings after taxes and before minority interests by geographic region are presented before consolidation adjustments representing the elimination of transactions between Allianz Group companies in different geographic regions and different segments.

# Life/Health Insurance Operations

## Double-digit statutory premium growth. Operating income and net income on target.

- \_ Total statutory premiums increased significantly by 9.6% to € 11.8 billion in Q1, driven in particular by our European and United States' life operations. Total statutory premiums, based on internal growth, rose by 10.9%.
- \_ Operating profit was in line with expectations for 2005.
- \_ Non-operating results increased significantly by 37.0% to € 163 million, largely driven by the elimination of goodwill amortization.
- \_ Net income rose significantly by € 79 million to € 326 million in Q1, reflecting a strong decline in tax expenses.

### Earnings Summary

Statutory premiums at March 31, 2005 by regions<sup>\*)</sup>  
in %

<sup>\*)</sup> After elimination of transactions between Allianz Group companies in different geographic regions and different segments.

### Statutory premiums

Our statutory premiums rose to € 11.8 billion in Q1, an increase of € 1.0 billion over the prior year period. Based on internal growth, our statutory premiums increased 10.9%. We continued to report significant growth in our European and U. S. markets. The strongest growth rates were achieved particularly in our German life business (17.8%; approximately 5–6% excluding impact from “Alterseinkünftegesetz”), Italy (21.4%) and the United States (16.2%). The favorable development in Germany was largely attributable to the strong growth at Allianz Lebensversicherungs-AG in new single premium contracts, especially with corporate customers, as well as driven by new contracts executed in late 2004 prior to the German “Retirement Revenue Act” (“Alterseinkünftegesetz”)

taking effect at January 1, 2005. In Italy, our subsidiaries Lloyd Adriatico and RAS experienced significant growth from the sale of its unit-linked and index-linked products. In the United States, Allianz Life of North America successfully continued to grow its equity-indexed annuity business. Conversely, statutory premiums in Spain at Allianz Seguros decreased, resulting from a decline after particularly strong prior year growth caused by a large pension portfolio purchase in Q1 2004. Taiwan also experienced a decline driven by significantly lower sales of single premium unit-linked contracts through its bancassurance channels.

Operating profit  
in € mn

## Operating Profit

In Q1, **operating profit** from our life/health insurance operations was in line with 2005 expectations and declined slightly by 3.8% to € 357 million as compared to € 371 million in the prior year period. This development is primarily attributable to a € 537 million, or 9.0%, increase in **insurance benefits (net)** driven largely by new business, as well as policyholders' participation in net capital gains on investments. However, **net acquisition costs and administrative expenses** decreased by 20.0% to € 759 million in Q1, driven primarily by the regular unlocking of assumptions within our deferred policy acquisition cost asset. Accordingly, our **statutory expense ratio** declined significantly to 6.6% from 9.2%.

## Net Income

**Net capital gains and impairments on investments** attributable to shareholders increased slightly in Q1 to € 153 million, compared with € 149 million from the prior year period. However, we realized significant gains in connection with the sale of certain shareholdings in Q1, namely the sale of Gecina S. A. by our subsidiary AGF Vie. **Intra-group dividends and profit transfers** remained flat at € 10 million in Q1. Net income was also positively affected by the elimination of the **amortization of goodwill** brought about by a change in accounting under IFRS. **Tax expense** decreased significantly from € 170 million to € 75 million, leading to an effective tax rate of 14.3%. This decline was largely influenced by the sale of our Gecina S. A. shareholding, which was subject to a lower rate of taxation. **Minority interest** in earnings increased by € 36 million to € 119 million, primarily due to our increased earnings in Italy and France. Overall, **net income** increased significantly by € 79 million to € 326 million.

Statutory expense ratio <sup>8)</sup> in %	6.6	9.2

<sup>1)</sup> Under the Allianz Group's accounting policies for life insurance contracts, for which we have adopted U.S. GAAP accounting standards, gross written premiums include only the cost- and risk-related components of premiums generated from unit-linked and other investment-oriented products, but do not include the full amount of statutory premiums written on these products. Statutory premiums are gross premiums written from sales of life insurance policies as well as gross receipts from sales of unit-linked and other investment-oriented products, in accordance with the statutory accounting practices applicable in the insurer's home jurisdiction.

<sup>2)</sup> Net of earned premiums ceded to reinsurers of € 217 million (Q1 2004: € 519 million).

<sup>3)</sup> Net of investment management expenses of € 92 million (Q1 2004: € 108 million) and interest expenses of € 1 million (Q1 2004: € 5 million).

<sup>4)</sup> Net insurance benefits were adjusted for income of € 1,134 million (Q1 2004: € 542 million) related to policyholders' participation of net capital gains and impairments on investments that were excluded from the determination of operating profit.

<sup>5)</sup> Comprises net acquisition costs of € 440 million (Q1 2004: € 651 million) and administrative expenses of € 319 million (Q1 2004: € 297 million). Net acquisition costs and administrative expenses do not include expenses for the management of investments and, accordingly, do not reconcile to the acquisition costs and administrative expenses as presented in the consolidated financial statements.

<sup>6)</sup> Comprises net realized gains on investments of € 172 million (Q1 2004: € 162 million), and net impairments on investments of € 19 million (Q1 2004: € 13 million). These amounts are net of policyholders' participation.

<sup>7)</sup> Effective January 1, 2005, under IFRS, and on a prospective basis, goodwill is no longer amortized.

<sup>8)</sup> Represents ratio of net acquisition costs and administrative expenses to net premiums earned (statutory).

## Life/Health Operations by Geographic Region

The following table sets forth our gross life/health statutory premiums, gross premiums written, as well as earnings after taxes and before minority interests in earnings and excludes amortization of goodwill, applicable only for 2004, which we refer to herein as “earnings after taxes and before minority interests”, by geographic region. Consistent with our general practice, statutory premiums, gross premiums written as well as earnings after taxes and before minority interests by geographic region are presented before consolidation adjustments representing the elimination of transactions between Allianz Group companies in different geographic regions and different segments.

# Banking Operations

## We achieved a significant increase in our operating profit and net income.

- \_ In Q1, we benefited from the further improvement of our banking business as operating profit reached € 238 million, of which Dresdner Bank contributed € 216 million, driving Dresdner Bank towards earning its cost of capital in 2005, despite a slight decline in operating revenues.
- \_ The strong increase in operating profit of 33.0% was driven by a further decline in net loan loss provisions and administrative expenses. This resulted in an improved cost-income ratio of Dresdner Bank, reaching 80.4% in Q1 (Q1 2004: 81.4%).
- \_ In Q1, Dresdner Bank contributed € 233 million to our results, excluding the realized gain following a significant reduction of its non-strategic equity portfolio through the Allianz Group's "All-in-one" capital market transactions. Net income of Dresdner Bank was also positively affected by the elimination of goodwill amortization under IFRS (Q1 2004: € 67 million) and the absence of restructuring charges.

## Earnings Summary

The results of operations of our banking segment are almost exclusively represented by Dresdner Bank, accounting for 96.1% of the total segment's operating revenues in Q1 (Q1 2004: 97.6%). Accordingly, the discussion of our banking segment's results of operations for the three months ended March 31, 2005 and 2004 relate solely to the operations of Dresdner Bank.

### Operating Revenues

Operating revenues declined slightly to € 1,616 million, a decrease of 2.9% compared to the prior year period. This was driven by a 8.6% decline in net fee and commission income to € 647 million due to lower revenues from our capital markets and insurance business in Personal Banking, Private & Business Banking, as well as Dresdner Kleinwort Wasserstein. Operating revenues of our Corporate Banking division remained fairly stable as we successfully increased our structured products business while simultaneously improving our net margin from our corporate loans business. The overall decrease in net fee and commission income was partly offset by a rise of 3.3% to € 534 million in net interest income. Net trading income was stable at € 435 million in Q1.

### Operating Profit

Operating profit of Dresdner Bank increased by 24.1% to € 216 million in Q1, compared to € 174 million in the prior year period, due to the continuous reductions of our **administrative expenses** and **net loan loss provisions**. All divisions contributed to these developments. Administrative expenses were reduced by 4.1% to €

1,300 million, driven by both personnel and non-personnel operating expenses. Personnel expenses decreased by € 39 million, or 4.6%, to € 810 million reflecting the success of our restructuring measures. As a result of lower expenses related primarily to information technology, as well as other expenses, non-personnel operating expenses also declined by 3.2% to € 490 million. Accordingly, our **cost-income ratio** further improved to 80.4% in Q1 (Q1 2004: 81.4%). Our net loan loss provisions declined by 25.9% to € 100 million, primarily as a result of the reduction in our non-strategic business and the absence of new provisions from our IRU division, thereby contributing significantly to our improved operating profit. Overall, our coverage ratio increased to 61.9% in Q1 (Q1 2004: 54.0%).

### Operating profit

in € mn

## Net Income

**Net income** of Dresdner Bank improved significantly to € 466 million in Q1 from € 88 million in the prior year period. In addition to the positive developments in our operating profit and the absence of **restructuring charges** in Q1, Dresdner Bank's net income benefited from certain changes in IFRS accounting standards, including the elimination of **goodwill amortization** (Q1 2004: € 67 million). Due to the successful further reduction of its non-strategic equity holdings, **net capital gains and impairments on investments** of Dresdner Bank increased to € 294 million in Q1, compared to a loss of € 11 million in the prior year period. This positive development was mainly attributable to our successful "All-in-one" capital market

transactions, whereby Dresdner Bank transferred approximately 5% of its 7.3% shareholding in Munich Re to Allianz AG, realizing a tax-exempt gain of € 233 million. Additionally, the increase in net capital gains and impairments on investments also resulted from the sale of certain other shareholdings. The majority of the aforementioned capital gains are reflected in our Corporate Other division. However, the net capital gains resulting from the transfer of Munich Re shares were eliminated at the Allianz Group level. Due primarily to increased operating profitability, **tax expense** rose by € 83 million to € 74 million compared to a tax benefit of € 9 million in the prior year period.

<sup>1)</sup> Consists of net interest income, net fee and commission income, and net trading income. Operating revenue is a measure used by management to calculate and monitor the activities and operating performance of its banking operations. This measure is used by other banks, but other banks may calculate operating income on a different basis and accordingly may not be comparable to operating income as used herein. With effect from January 1, 2004, current income (loss) from investments in associated enterprises and joint ventures is included within operating revenues.

<sup>2)</sup> Consists of non-Dresdner Bank banking operations within our banking segment.

<sup>3)</sup> Effective January 1, 2005, under IFRS, and on a prospective basis, goodwill is no longer amortized.

# Asset Management Operations

## We continued to increase our assets under management and operating profit.

- \_ In Q1, we achieved an increase in our assets under management of 5.9% to € 1,133 billion since December 31, 2004. This amount includes net inflows of third-party investments of € 17 billion in Q1.
- \_ Our operating profit improved by € 51 million to € 231 million in Q1. We achieved a cost-income ratio of 60.9%, a significant improvement of 6.0 percentage points.
- \_ Our asset management operations contributed net income of € 28 million in Q1 compared to a net loss of € 107 million in the prior year period.

The assets under management by the Allianz Group consist of third-party assets, group's own investments and financial assets for unit-linked contracts. See "Assets Under Management" for a breakdown of those assets managed by Allianz Global Investors.

### Earnings Summary

Our asset management segment's results of operations are almost exclusively represented by Allianz Global Investors, which accounted for 98.2% of our total asset management segment's operating revenues in Q1. Accordingly, the discussion of our asset management segment's results of operations for the three months ended March 31, 2005 and 2004 relate solely to the operations of Allianz Global Investors.

#### Operating Revenues

Operating revenues of Allianz Global Investors increased by € 37 million, or 6.8%, to € 581 million in Q1. Excluding the negative effects from exchange rate movements, operating revenues increased by € 57 million, representing a growth rate of 10.5% over the prior year period. This growth reflected positive business developments worldwide, resulting primarily from higher average assets under management driven by significant net inflows and favorable capital markets.

#### Operating Profit

Operating profit of Allianz Global Investors increased significantly by € 50 million, or 27.7%, to € 230 million in Q1, primarily due to growth in our **operating revenues**. Excluding the effects of exchange rate movements, operating profit improved by € 58 million, or 32.4%. While operating revenues increased, **operating expenses** decreased by € 13 million, or 3.5%, to € 351 million in Q1. Excluding the effects of exchange rate movements, operating expenses decreased by 0.3% to € 363 million. As a result of strict cost management, our **cost-income ratio** improved significantly to 60.4% in Q1 (Q1 2004: 66.9%).

#### Operating profit

in € mn

## Net Income

Allianz Global Investors reported **net income** of € 27 million in Q1, representing a significant improvement from the net loss of € 107 million in the prior year period. **Acquisition-related expenses** decreased to € 165 million in Q1. Thereof, € 127 million was due to the deferred purchases of interests in PIMCO, which decreased from € 135 million in the prior year period. Further, € 10 million related to retention payments for the management and employees of PIMCO and Nicholas Applegate, which decreased from € 38 million as they largely expire this year. These deferred purchases of interests in PIMCO and retention payments were agreed upon

at the time these investment companies were acquired. Amortization related to capitalized loyalty bonuses for PIMCO management expired in Q1 and amounted to € 28 million. Our net income also benefited from the elimination of **goodwill amortization** under IFRS, effective January 1, 2005 (Q1 2004: € 92 million). Due to improved operating profitability, decreased acquisition-related expenses and the elimination of goodwill amortization, **tax expenses** increased by € 49 million in Q1 over the prior year period.

Financial assets for unit-linked contracts <sup>1)</sup>	44,974 <sup>3)</sup>	4.0	41,412 <sup>3)</sup>	3.9
<b>Total</b>	<b>1,132,622</b>	<b>100.0</b>	<b>1,069,885</b>	<b>100.0</b>

<sup>1)</sup> Assets are presented at fair value.

<sup>2)</sup> Includes adjustments to reflect real estate and investments in associated enterprises and joint ventures at fair value. These adjustments were made in order to reflect the definition of group's own investments used by management for its controlling purposes.

<sup>3)</sup> As a result of a new IFRS accounting standard (IAS 39 revised), certain unit-linked contracts previously classified as trading assets within group's own investments were reclassified to financial assets for unit-linked contracts, resulting in no net income statement impact.

We manage our third-party asset management business primarily through our asset management subsidiary Allianz Global Investors. As of March 31, 2005, Allianz Global Investors managed approximately € 588 billion, or 94.3%, of our third-party assets under management and approximately € 220 billion, or 47.5%, of our group's own investments. Overall, Allianz Global Investors managed approximately € 808 billion, or 71.4%, of the Allianz Group's total assets under management. The remainder of our third-party assets are managed by Dresdner Bank (approximately € 19 billion, or 3.0%) and other Allianz Group companies (approximately € 17 billion, or 2.7%). The remaining group's own investments, as well as financial assets for unit-linked contracts, continue to be managed by the respective Allianz Group's insurance companies around the world.

### Assets Under Management by Entity

at March 31, 2005 in € bn

<sup>1)</sup> Includes financial assets for unit-linked contracts of € 45.0 billion.

## Third-Party Assets

Overall, third-party assets account for approximately 55.0% or € 624 billion of assets managed by the Allianz Group. Since December 31, 2004, the value of this portfolio has increased by € 39 billion, including net inflows of € 17 billion and positive effects from exchange rate movements of € 23 billion, resulting primarily from the strengthening of the U.S. dollar as compared to the Euro. Market-related declines in the value of our assets amounted to € 1 billion.

We have strong market positions in the United States and Germany. 71.0% and 14.9% of our third-party assets under management originated from the United States and Germany, respectively. Of the total third-party assets under management, 76.4% and 22.1% were invested in fixed income securities and equities, respectively. Institutional customers accounted for 60.1% of our third-party assets under management. This customer segment requires us to provide the highest standards in terms of quality of products and services. Our high standards also benefited our retail clients, which accounted for 39.9% of our third-party assets under management.

# Outlook for the Allianz Group

Our results of operations during the first three months of 2005 demonstrate that we continue to successfully execute our “3+One” program in 2005 with a committed focus on managing for profitable growth. We continue to expect an overall increase of total revenues in line with 2004 and remain focused on concentrating our efforts in sustaining and selectively improving our operating profits. Within our property and casualty segment we have thus far been successful in maintaining a strong combined ratio of below 95% (Q1: 92.1%), even though in some markets, the residual potential for further rate increases may be limited. We remain confident that our life/health segment will achieve its operating profit target of at least € 1.5 billion. We also remain confident that Dresdner Bank is on track to earn its cost of capital in 2005. Additionally, we continue to target a 10% increase in operating profit for our Asset Management business (Q1: 28.3%). However, as always, natural catastrophes and adverse developments on the capital markets may severely impact our profitability.

In Q1, our consolidated net income was positively affected by certain changes in International Financial Reporting Standards (IFRS), which is more fully described in Note 2 to our consolidated financial statements.

## Cautionary Note Regarding Forward-Looking Statements

Certain of the statements contained herein may be statements of future expectations and other forward-looking statements that are based on management's current views and assumptions and involve known and unknown risks and uncertainties that could cause actual results, performance or events to differ materially from those expressed or implied in such statements. In addition to statements which are forward-looking by reason of context, the words ‘may, will, should, expects, plans, intends, anticipates, believes, estimates, predicts, potential, or continue’ and similar expressions identify forward-looking statements. Actual results, performance or events may differ materially from those in such statements due to, without limitation, (i) general economic conditions, including in particular economic conditions in the Allianz Group's core business and core markets, (ii) performance of financial markets, including emerging markets, (iii) the frequency and severity of insured loss events, (iv) mortality and morbidity levels and trends, (v) persistency levels, (vi) the extent of credit defaults (vii) interest rate levels, (viii) currency exchange rates including the Euro-U.S. dollar exchange rate, (ix) changing levels of competition, (x) changes in laws and regulations, including monetary convergence and the European Monetary Union, (xi) changes in the policies of central banks and/or foreign governments, (xii) the impact of acquisitions, including related integration issues, (xiii) reorganization measures and (xiv) general competitive factors, in each case on a local, regional, national and/or global basis. Many of these factors may be more likely to occur, or more pronounced, as a result of terrorist activities and their consequences. The company assumes no obligation to update any forward-looking information contained herein.

The data for the Allianz Group's consolidated statements of cash flows was prepared in accordance with International Financial Reporting Standards (IFRS).

Inflows for taxes on income amounted to € 84 mn (2004: Outflows of € 225 mn).

## Notes to the Consolidated Financial Statements

### 1 Basis of presentation

The consolidated financial statements have been prepared in conformity with International Financial Reporting Standards (IFRS) as adopted under European Union (EU) regulations in accordance with clause 315a of the German Commercial Code (HGB). EU regulations require full compliance with IFRS with the exception of the IAS 39 carve-out rules. Since 2002, the designation IFRS applies to the overall framework of all standards approved by the International Accounting Standards Board. Already approved standards continue to be cited as International Accounting Standards (IAS). In establishing these consolidated financial statements, all IFRS standards have been adhered to, however:

- IAS 39 revised 2003, **Financial Instruments: Recognition and Measurement** ("IAS 39 revised") requires a change to the Allianz Group's impairment criteria for equity securities. An equity security is considered to be impaired if there is objective evidence that the cost of the equity security may not be recovered. IAS 39 revised requires that a significant or prolonged decline in the fair value of an equity security below cost is considered to be objective evidence of impairment. As a result, the Allianz Group will potentially establish new impairment criteria for equity securities to define significant or prolonged decline.
- IAS 39 revised does not allow an adjusted cost basis to be established upon impairment of an equity security. Rather, each reporting period, if the fair value is less than the original cost basis of the equity security, the security is analyzed for impairment based upon the Allianz Group's impairment criteria. At each reporting date, for equity securities that are determined to be impaired based upon the Allianz Group's impairment criteria, an impairment is recognized for the difference between the fair value and the original cost basis, less any previously recognized impairments. According to the Allianz Group's existing accounting policy, upon the recognition of an impairment of an equity security, an adjusted cost basis was established. Therefore, at each reporting period, if the fair value was less than the adjusted cost basis of the equity security, the security was analyzed for impairment based upon the Allianz Group's impairment criteria.

The Allianz Group is currently in discussions with the accounting standards setters to determine if the adoption of IAS 39 revised, including the above mentioned points, will result in a difference to accounting principles generally accepted in the United States (U.S. GAAP). Upon conclusion of those discussions and the clarification of the timing of the impairment tests by

IFRIC (quarterly versus annual tests) during 2005, the Allianz Group will adopt these provisions retrospectively as if adopted on January 1, 2005. These provisions are not expected to have a material impact on the Allianz Group's net income for the three months ended March 31, 2005. These provisions are expected to result in a material impact between revenue reserves and unrealized gains and losses (net), however, these provisions will not impact the total reported shareholders' equity as of December 31, 2004.

For years through 2004, IFRS did not provide specific guidance concerning the reporting of insurance and reinsurance contracts. Therefore, as envisioned in the IFRS Framework, the provisions embodied under accounting principles generally accepted in the United States of America (U.S. GAAP) have been applied. See Note 2 regarding changes to IFRS effective January 1, 2005. The financial statements are presented in Euros (€).

In certain cases, prior reporting period figures were reclassified in the consolidated balance sheet and in the consolidated income statement to make them comparable with the presentation of the current reporting period. These reclassifications had no impact on income.

## 2 Recently adopted accounting pronouncements

Effective January 1, 2005, the Allianz Group adopted IAS 32 revised 2003, **Financial Instruments: Disclosure and Presentation** ("IAS 32 revised") and IAS 39 revised.

IAS 39 revised prohibits reversals of impairment losses on equity securities. According to the Allianz Group's previous accounting policy, if the amount of an impairment previously recorded on an equity security decreases, the impairment was reversed. IAS 39 revised required retrospective application of this change; therefore, the Allianz Group's previously issued consolidated financial statements were required to be restated to include the effects of this change. As a result of the adoption of this provision of IAS 39 revised, the Allianz Group recorded the following effects in the consolidated income statement for the three months ended March 31, 2004:

(Debit) Credit	€ mn
Other income from investments	(164)
Insurance and investment contract benefits (net)	92
Other expenses from investments	35
Taxes	10
Minority interests in earnings	(2)
<b>Net impact on previously reported net income</b>	<b>(29)</b>

Further, as a result of the adoption of this provision of IAS 39 revised, the Allianz Group recorded the following effects in shareholders' equity as of December 31:

	2004	2003
	€ mn	€ mn
Revenue reserves	(618)	(554)
Unrealized gains and losses (net)	618	554
<b>Net impact on previously reported shareholders' equity</b>	<b>-</b>	<b>-</b>

In accordance with IAS 32 revised, a financial instrument qualifies as a financial liability of the issuer if it gives the holder the right to put the instrument back to the issuer for cash or another financial asset (a "puttable instrument"). The classification as a financial liability is independent of considerations such as when the right is exercisable, how the amount payable or receivable upon exercise of the right is determined, and whether the puttable instrument has a fixed maturity. As a result of the adoption of IAS 32 revised, the Allianz Group was required to reclassify the minority interests in shareholders' equity of certain consolidated investment funds to liabilities. These liabilities are required to be recorded at redemption amount with changes recorded in the consolidated income statement.

Further, IAS 39 revised created a new category, designated at fair value through income, for financial assets. Financial assets designated at fair value through income are recognized at fair value with changes recognized in net income. As a result of being required to record the liabilities related to the previously mentioned consolidated investment funds at the redemption amount due to the adoption of IAS 32 revised, the Allianz Group reclassified the related investments from securities available-for-sale to financial assets designated at fair value through income. IAS 39 revised required retrospective application of these changes. As a result of the adoption of these provisions of IAS 32 revised and IAS 39 revised, the Allianz Group recorded the following effects in the consolidated balance sheet as of December 31, 2004:

Debit (Credit)	€ mn
Investments	(3,440)
Financial assets carried at fair value through income	3,440
Deferred tax assets	16
Shareholders' equity <sup>*)</sup>	1,399
Financial liabilities carried at fair value through income <sup>*)</sup>	(1,388)
Other liabilities	(1)
Deferred tax liabilities	(26)

<sup>\*)</sup> Primarily due to puttable liabilities.

As a result of the adoption of these provisions of IAS 32 revised and IAS 39 revised, the Allianz Group recorded the following effects in the consolidated income statement for the three months ended March 31, 2004:

(Debit) Credit	€ mn
Interest and similar income	(13)
Other income from investments	(55)
Income from financial assets and liabilities carried at fair value through income	73
Insurance and investment contract benefits (net)	(40)
Other expenses from investments	30
Taxes	2
Minority interests in earnings	8
<b>Net impact on previously reported net income</b>	<b>5</b>

As a result of the adoption of these provisions of IAS 32 revised and IAS 39 revised, the Allianz Group recorded the following effects in shareholders' equity as of December 31:

Increase (Decrease)	2004	2003
	€ mn	€ mn
Revenue reserves	1	(2)
Unrealized gains and losses (net)	(11)	(9)
Minority interests in shareholders' equity	(1,389)	(792)
<b>Net impact on previously reported shareholders' equity</b>	<b>(1,399)</b>	<b>(803)</b>

In addition, as a result of the adoption of IAS 39 revised, the Allianz Group reclassified certain securities available-for-sale to loans and advances to banks and loans and advances to customers. As a result of the adoption of this provision of IAS 39 revised, the Allianz Group recorded the following effects in the consolidated balance sheet as of December 31, 2004:

Debit (Credit)	€ mn
Investments in associated enterprises and joint ventures	(75)
Investments	(67,785)
Loans and advances to banks	55,677
Loans and advances to customers	8,041
Deferred tax assets	(4)
Shareholders' equity	573
Reserves for insurance and investment contracts	3,290
Deferred tax liabilities	283

As a result of the adoption of this provision of IAS 39 revised, the Allianz Group recorded the following effects in shareholders' equity as of December 31:

Increase (Decrease)	2004	2003
	€ mn	€ mn
Unrealized gains and losses (net)	(543)	(436)
Minority interests in shareholders' equity	(30)	(29)
<b>Net impact on previously reported shareholders' equity</b>	<b>(573)</b>	<b>(465)</b>

Effective January 1, 2005, the Allianz Group adopted the revised versions of fifteen IAS standards. As a result of the adoption of IAS 1 revised, the Allianz Group reclassified minority interests in shareholders' equity into shareholders' equity in the consolidated balance sheet and the consolidated statement of changes in shareholders' equity as of December 31, 2003. As a result of the adoption of IAS 1 revised, shareholders' equity increased by € 9,531 mn and € 8,367 mn on December 31, 2004 and December 31, 2003 respectively.

Effective January 1, 2005, the Allianz Group adopted IFRS 2, **Share Based Payments** ("IFRS 2"). In accordance with IFRS 2, share-based compensation plans are required to be classified as equity settled or cash settled plans. Equity settled plans are measured at fair value on the grant date and recognized as expense in the income statement, with an increase in shareholders' equity, over the vesting period. Cash settled plans are measured at fair value at each reporting date and recognized as liabilities. Changes in the fair value of cash settled plans are recognized as expense in the income statement. A company is considered to have a cash settled plan if the shares issued are redeemable, either mandatorily or at the counter-party's option. In this respect, IFRS 2 has incorporated the "puttable instrument" concept of IAS 32 revised, which requires that such instruments be classified as liabilities rather than equity instruments. As a result of the adoption of IFRS 2, the PIMCO LLC Class B Unit Purchase Plan ("Class B Plan") is considered a cash settled plan as the equity instruments issued are puttable at the counter-party's option. According to the Allianz Group's previous accounting policy, the Class B Plan was considered an equity settled plan.

Further, IFRS 2 requires that equity settled plans include a best estimate of the number of equity instruments that are expected to vest in determining the amount of expense to be recognized. The Allianz Group's previous accounting policy required that forfeitures of equity instruments be recognized when incurred.

As a result of the adoption of IFRS 2, the Allianz Group recorded the following effects in the consolidated balance sheet as of December 31, 2004:

Debit (Credit)	€ mn
Deferred tax assets	154
Other assets	(550)
Shareholders' equity	659
Other accrued liabilities	(816)
Other liabilities	553

As a result of the adoption of IFRS 2, the Allianz Group recorded the following effects in the consolidated income statement for the three months ended March 31, 2004:

(Debit) Credit	€ mn
Acquisition and administrative expenses (net)	(85)
Taxes	24
Minority interests in earnings	27
<b>Net impact on previously reported net income</b>	<b>(34)</b>

As a result of the adoption of IFRS 2, the Allianz Group recorded the following effects in the shareholders' equity as of December 31:

Increase (Decrease)	2004	2003
	€ mn	€ mn
Revenue reserves	(295)	(172)
Foreign currency translation adjustments	46	23

<b>Net impact on previously reported shareholders' equity</b>	<b>(659)</b>	<b>(432)</b>

Effective January 1, 2005, the Allianz Group adopted IFRS 3, **Business Combinations** ("IFRS 3"). In accordance with IFRS 3, a company must cease the amortization of goodwill and intangible assets with an indefinite life and rather test for impairment on an annual basis in addition to whenever there is an indication that the carrying value is not recoverable. As a result of the adoption on IFRS 3 on January 1, 2005, the Allianz Group ceased amortization of goodwill and brand names.

Effective January 1, 2005, the Allianz Group adopted IFRS 4, **Insurance Contracts** ("IFRS 4"). IFRS 4 represents the completion of phase I and is a transitional standard until the IASB has more fully addressed the recog-

inition and measurement of insurance contracts. IFRS 4 requires that all contracts issued by insurance companies be classified as either insurance contracts or investment contracts. Contracts with significant insurance risk are considered insurance contracts. IFRS 4 permits a company to continue with its previously adopted accounting policies with regard to recognition and measurement of insurance contracts. As a result, the Allianz Group will continue to apply the provisions of US GAAP for the recognition and measurement of insurance contracts. Contracts issued by insurance companies without significant insurance risk are considered investment contracts. Investment contracts are accounted for in accordance with IAS 39 revised. As a result of the adoption of IFRS 4, certain contracts were reclassified as investment contracts. This change did not have a material effect on the Allianz Group's shareholders' equity as of December 31, 2003.

Further, the Allianz Group reclassified the assets related to its unit linked insurance and investment contracts to financial assets designated at fair value through income and the related liabilities to financial liabilities designated at fair value through income as allowed under the EU insurance directives.

As a result of this reclassification, the Allianz Group recorded the following effects in the consolidated balance sheet as of December 31, 2004:

Debit (Credit)	€ mn
Separate account assets	(15,851)
Financial assets carried at fair value through income	15,851
Reserves for insurance and investment contracts	25,560
Separate account liabilities	15,848
Financial liabilities carried at fair value through income	(41,408)

### 3 Segment reporting

<sup>1)</sup> Total revenues comprise property-casualty segment's gross premiums written, life/health segment's statutory premiums, banking segment's operating revenues, and asset management segment's operating revenues.

## Property-Casualty Insurance Segment

Three months ended March 31,	2005	2004
	€ mn	€ mn
Gross premiums written	14,177	14,378
Premiums earned (net) <sup>1)</sup>	9,165	9,469
Current income from investments (net) <sup>2)</sup>	773	610
Insurance benefits (net) <sup>3)</sup>	(6,164)	(6,773)
Net acquisition costs and administrative expenses <sup>4)</sup>	(2,616)	(2,520)
Other operating income/(expenses)(net)	(154)	(289)
<b>Operating profit</b>	<b>1,004</b>	<b>497</b>
Net capital gains and impairments on investments <sup>5)</sup>	448	658
Net trading income/(expenses) <sup>6)</sup>	(3)	(34)
Intra-group dividends and profit transfer	146	94
Interest expense on external debt	(257)	(200)
Amortization of goodwill <sup>7)</sup>	-	(95)
<b>Earnings from ordinary activities before taxes</b>	<b>1,338</b>	<b>920</b>
Taxes	(397)	(189)
Minority interests in earnings	(188)	(177)
<b>Net income</b>	<b>753</b>	<b>554</b>
Loss ratio <sup>8)</sup>	66.5	70.4
Expense ratio <sup>9)</sup>	25.6	25.4
<b>Combined ratio</b>	<b>92.1</b>	<b>95.8</b>

<sup>1)</sup> Net of earned premiums ceded to reinsurers of € 1,244 million (2004: € 1,201 million).

<sup>2)</sup> Net of investment management expenses of € 75 million (2004: € 75 million) and interest expenses of € 35 million (2004: € 235 million).

<sup>3)</sup> Comprises net claims incurred of € 6,093 million (2004: € 6,663 million), income from changes in other net underwriting provisions of € 5 million (2004: expenses of € 50 million) and net expenses for premium refunds of € 76 million (2004: € 60 million). Net expenses for premium refunds were adjusted for expenses of € 7 million (2004: income of € 22 million) related to policyholders' participation of net capital gains and impairments on investments, as well as net trading income/(expenses), that were excluded from the determination of operating profit.

<sup>4)</sup> Comprises net acquisition costs of € 1,412 million (2004: € 1,388 million), administrative expenses of € 937 million (2004: € 1,025 million) and expenses for service agreements of € 267 million (2004: € 107 million). Net acquisition costs and administrative expenses do not include expenses for the management of investments and, accordingly, do not reconcile to the acquisition costs and administrative expenses as presented in the consolidated financial statements.

<sup>5)</sup> Comprises net realized gains on investments of € 470 million (2004: € 705 million), and net impairments on investments of € 22 million (2004: € 47 million). These amounts are net of policyholders' participation.

<sup>6)</sup> Net trading income/(expenses) are net of policyholders' participation.

<sup>7)</sup> Effective January 1, 2005, under IFRS, and on a prospective basis, goodwill is no longer amortized.

<sup>8)</sup> Represents ratio of net claims incurred to net premiums earned.

<sup>9)</sup> Represents ratio of net acquisition costs and administrative expenses to net premiums earned.

## Life/Health Insurance Segment

Three months ended March 31,	2005	2004
	€ mn	€ mn
Statutory premiums <sup>1)</sup>	11,838	10,801
Gross premiums written	5,389	5,301
Premiums earned (net) <sup>2)</sup>	5,142	4,749
Current income from investments (net) <sup>3)</sup>	2,655	2,619
Insurance benefits (net) <sup>4)</sup>	(6,529)	(5,992)
Net acquisition costs and administrative expenses <sup>5)</sup>	(759)	(948)
Net trading income/(expenses)	(52)	30
Other operating income/(expenses) (net)	(100)	(87)
<b>Operating profit</b>	<b>357</b>	<b>371</b>
Net capital gains and impairments on investments <sup>6)</sup>	153	149
Intra-group dividends and profit transfer	10	10
Amortization of goodwill <sup>7)</sup>	-	(40)
<b>Earnings from ordinary activities before taxes</b>	<b>520</b>	<b>490</b>
Taxes	(75)	(170)
Minority interests in earnings	(119)	(73)
<b>Net income</b>	<b>326</b>	<b>247</b>
Statutory expense ratio <sup>8)</sup> in %	6.6	9.2

<sup>1)</sup> Under the Allianz Group's accounting policies for life insurance contracts, for which we have adopted U.S. GAAP accounting standards, gross written premiums include only the cost- and risk-related components of premiums generated from unit-linked and other investment-oriented products, but do not include the full amount of statutory premiums written on these products. Statutory premiums are gross premiums written from sales of life insurance policies as well as gross receipts from sales of unit-linked and other investment-oriented products, in accordance with the statutory accounting practices applicable in the insurer's home jurisdiction.

<sup>2)</sup> Net of earned premiums ceded to reinsurers of € 217 million (2004: € 519 million).

<sup>3)</sup> Net of investment management expenses of € 92 million (2004: € 108 million) and interest expenses of € 1 million (2004: € 5 million).

<sup>4)</sup> Net insurance benefits were adjusted for income of € 1,134 million (2004: € 542 million) related to policyholders' participation of net capital gains and impairments on investments that were excluded from the determination of operating profit.

<sup>5)</sup> Comprises net acquisition costs of € 440 million (2004: € 651 million) and administrative expenses of € 319 million (2004: € 297 million). Net acquisition costs and administrative expenses do not include expenses for the management of investments and, accordingly, do not reconcile to the acquisition costs and administrative expenses as presented in the consolidated financial statements.

<sup>6)</sup> Comprises net realized gains on investments of € 172 million (2004: € 162 million), and net impairments on investments of € 19 million (2004: € 13 million). These amounts are net of policyholders' participation.

<sup>7)</sup> Effective January 1, 2005, under IFRS, and on a prospective basis, goodwill is no longer amortized.

<sup>8)</sup> Represents ratio of net acquisition costs and administrative expenses to net premiums earned (statutory).

Acquisition costs and administrative expenses in property-casualty and life/health insurance segments include the personnel and operating expenses of the property-casualty and life/health insurance segments allocated to the functional areas acquisition of insurance policies, administration of insurance policies and management of investments. Other personnel and operating expenses of the property-casualty and life/health insurance segments are included in insurance and investment contract benefits (net) (claims settlement expenses) and other expenses.

All personnel and operating expenses of the banking segment are reported under acquisition costs and administrative expenses.

## Other Information

### 33 Other information

#### Number of employees

The Allianz Group had a total of 175,164 (176,501<sup>\*)</sup> employees as of March 31, 2005. 74,189 (75,667) of these were employed in Germany and 100,975 (100,834<sup>\*)</sup> in other countries. The number of employees undergoing training decreased by 558 to 4,348.

<sup>\*)</sup> increase of 14,321 reflects changes in scope of consolidation in 2004

#### Personnel expenses

Three months ended March 31,	2005	2004
	€ mn	€ mn
Salaries and wages	2,191	2,124
Social security contributions and employee assistance	370	358
Expenses for pensions and other post-retirement benefits	155	162
<b>Total</b>	<b>2,716</b>	<b>2,644</b>

**Earnings per share**

Basic earnings per share is computed by dividing the Allianz Group's consolidated net income by the weighted average number of common shares outstanding for the period. Diluted earnings per share reflects the effect of potentially dilutive securities. As of March 31, 2005, 1,175,554 (2004: 1,175,554) participation certificates issued by Allianz AG were outstanding which can potentially be converted to 1,469,443 (2004: 1,469,443) Allianz shares and therefore have a dilutive effect.

The Allianz Group's share-based compensation plans and warrants issued by Allianz AG with potentially dilutive securities of 766,672 are included in the calculation of diluted earnings per share for 2005.

Three months ended March 31,	2005	2004
	€ mn	€ mn
<b>Numerator for basic earnings per share (net income)</b>	<b>1,184</b>	<b>617</b>
Effect of dilutive securities	-	1
<b>Numerator for diluted earnings per share (net income after assumed conversion)</b>	<b>1,184</b>	<b>618</b>
<b>Denominator for basic earnings per share (weighted-average shares excluding treasury shares held by the Allianz Group)</b>	<b>378,250,878</b>	<b>366,813,576</b>
Potential dilutive securities	2,236,115	1,469,443
<b>Denominator for diluted earnings per share (weighted-average shares after assumed conversion)</b>	<b>380,486,993</b>	<b>368,283,019</b>
Basic earnings per share	3.13	1.68
Diluted earnings per share	3.11	1.68

The weighted average number of shares does not include 7,524,122 (2004: 17,905,174) treasury shares held by the Allianz Group.
