# Executive Summary

## Strong earnings momentum.

- › Strong operating profit of €2.7 billion in 3Q 2006, up 43% from a year ago.
  - \_ Combined ratio of 90.2% in Property-Casualty.
  - \_ Double-digit growth in Life/Health operating profit, despite lower revenues in Italy and the United States.
  - \_ Dresdner Bank operating profit grew by 38%.
  - \_ Asset Management maintained strong operating profitability.
- › Net income doubled to €1.6 billion, driven by operating profit improvements.
- › Full year outlook: We expect operating profit to exceed €9.5 billion and net income to surpass €6 billion.<sup>1)</sup>

<sup>3)</sup> Does not include minority interests.

## Allianz Group's Consolidated Results of Operations

### Total Revenues

Our total revenues remained at a strong level of €22.6 billion and €76.3 billion in 3Q and 9M 2006, respectively. This was the net effect of growth in our Property-Casualty, Banking and Asset Management segments and a decline in our Life/Health segment. Total internal revenue growth year-on-year amounted to (4.0)% in 3Q 2006 (9M 2006: year-on-year increase of 0.3%).

### Total Revenues – Segments in € mn

**Property-Casualty** Gross premiums written, at €10.4 billion in 3Q 2006, were 0.4% higher than a year ago, as we continued to exhibit diligent risk selection and focus on profitability. This successful policy translated into marked growth in selected rewarding markets around the world, offset by decreases of, in aggregate, a similar magnitude in markets where maintaining profitability required concessions to volume. Internal growth of gross premiums written year-on-year was 1.8% (9M 2006: 0.5%).

**Life/Health** Statutory premiums remained sound at €9.8 billion in 3Q 2006, albeit down 11.8% from a year ago. We continued to experience solid growth both in emerging markets and in some of our more mature markets. However, this was more than offset by marked shortfalls in the United States and Italy. In the United States, our distribution was faced with regulatory impediments. Similarly, in Italy, the difficult market environment and adverse developments within our bancassurance distribution channel caused revenues to drop. On an internal growth basis, statutory premiums were down 10.9% (9M 2006: year-on-year decrease of 2.3%).

**Banking** In 3Q 2006, operating revenues from our Banking segment increased 5.7% from a year ago to €1.7 billion. Strong growth of net interest income was offset by a decline in trading income (net), following the uncertain and challenging market environment in 3Q 2006. On a nine months comparison, our banking segment's operating revenues experienced dynamic growth to €5.3 billion, up 14.2%, with all revenue categories and operating divisions at Dresdner Bank contributing to this strong development. Internal growth of our Banking segment's operating revenues was 5.9% and 14.1% in 3Q and 9M 2006, respectively.

**Asset Management** During the first nine months of 2006, net inflows to third-party assets and market effects amounted to €25 billion each. Partially offsetting this were negative foreign currency effects, resulting in third-party assets of €755 billion at September 30, 2006. Mainly attributable to our strong and continuously growing third-party asset base, we experienced increases in operating revenues year-on-year of 2.3% in 3Q 2006 and 14.9% in 9M 2006. Internal growth was 6.3% and 14.3%, respectively.

### Operating Profit

At €2.7 billion, operating profit in 3Q 2006 was 42.7% higher than a year ago. For the first nine months of 2006, we experienced a 33.4% year-on-year increase to €8.1 billion, with all segments exhibiting strong double-digit increases.

### Operating Profit – Segments in € mn

**Property-Casualty** Operating profit grew markedly by 74.1% year-on-year to €1.7 billion in 3Q 2006 (9M 2006: growth of 28.6% from a year ago to €5.0 billion). Similarly, our combined ratio improved significantly and remained at a very competitive level of 90.2% and 92.2% in 3Q and 9M 2006, respectively, compared to 98.6% and 94.9% in the same periods last year. The exceptionally heavy damages from major natural catastrophes in the United States, Central Europe and Asia in the prior year period were not repeated in 3Q 2006. However, our loss ratio continued to develop strongly, irrespective of the impact from natural catastrophes.

**Life/Health** In 3Q 2006, we continued to substantially increase our operating profit by 11.0% to €617 million compared to the prior year period. Our strong asset base after the segment's growth in recent years and improved equity markets, as well as our high margins on both our in-force and new business contributed to this development.

**Banking** We experienced double-digit operating profit growth year-on-year for the third consecutive quarter, almost achieving our full year 2006 operating profit target after only nine months. Our cost-income ratio improved significantly to 78.6% for the first nine months of 2006 compared to 87.0% a year earlier.

**Asset Management** Strong operating profitability continued. Our Asset Management's cost-income ratio remained at very competitive levels of 59.5% in 3Q 2006 and 59.4% in 9M 2006 compared to 57.7% and 59.2% in the same periods last year.

### Non-Operating Items

Overall, non-operating items created an income of €13 million in 3Q 2006, compared to a charge of €218 million a year ago (9M comparison: income of €565 million in 2006 versus a charge of €62 million in 2005).

In 3Q 2006, significant capital gains of €0.3 billion stemmed from the sale of Four Seasons Healthcare Ltd. Similarly, in the first half of 2006, we realized significant gains from the sale of our participations in Schering AG and Eurohypo AG. In aggregate, non-operating income from realized gains/losses (net) and impairments of investments (net) was €465 million in 3Q 2006 and €2.5 billion in 9M 2006, up 60.3% and 72.7%, respectively, from a year ago.

The impact from restructuring charges on non-operating items rose to €50 million in 3Q 2006 from €2 million a year ago, reflecting the first impacts of our ongoing "Neue Dresdner Plus program". For the first nine months of 2006, non-operating restructuring charges amounted to €458 million (9M 2005: €85 million). This was primarily a result of charges at Allianz Deutschland AG in 2Q 2006 in connection with the reorganization of our German insurance operations. This reorganization is intended to help us to improve our competitiveness and offer our customers better service, while operating more efficiently.

Interest expense from external debt, acquisition-related expenses from our Asset Management segment, and other non-operating items, in aggregate, were down to €402 million in 3Q 2006 from €506 million a year earlier (9M 2006 versus 9M 2005: up from €1.4 billion to €1.5 billion).

### Net Income

Net income in 3Q 2006 doubled compared to a year ago and reached €1.6 billion. For the first nine months of 2006, net income was €5.6 billion, a 61.0% increase over the prior year period. These strong improvements were primarily driven by our operating profit, reflecting the high quality of our earnings.

Accordingly, income tax expenses in 3Q 2006 were up €280 million from last year to €797 million, representing an effective income tax rate of 29.8% (3Q 2005: 31.4%). Our effective income tax rate benefited from the tax-exemption of the capital gain in connection with the sale of Four Seasons Healthcare Ltd., previously mentioned. Similarly, with income tax expenses up €546 million to €2.1 billion in 9M 2006, our effective income tax rate in 9M 2006 declined to 23.6% compared to 25.0% a year ago mainly due to higher tax-exempted income, such as the realized capital gain from the Schering transaction in June 2006.

Minority interests in earnings, at €285 million in 3Q 2006, were down €50 million, primarily due to the buyout of minorities and decreased earnings after income taxes at RAS in Italy, as well as lower earnings after income taxes at AGF in France. For the first nine months of 2006, minority interests in earnings were flat at €1.0 billion.

The following graph sets forth the development of our basic and diluted earnings per share.

### Earnings per Share

<sup>1)</sup> See Note 37 to our consolidated financial statements for further details regarding the dilutive effect.

The following tables summarize the total revenues and operating profit for each of our segments for the three and nine months ended September 30, 2006 and 2005, respectively, as well as IFRS consolidated net income of the Allianz Group.

## Allianz Group's Shareholders' Equity and Invested Assets

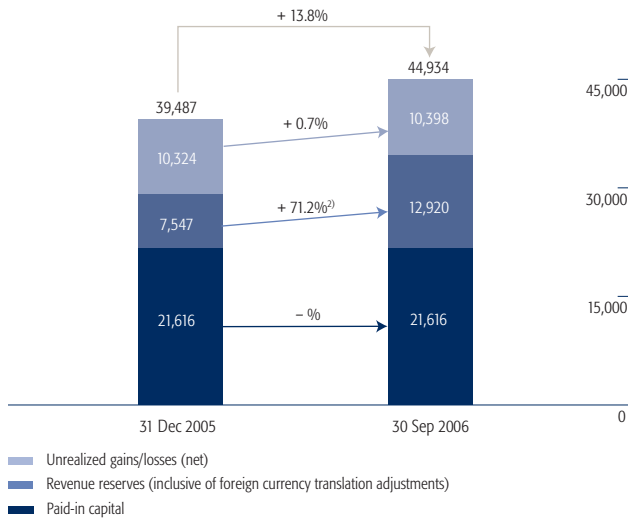

### Shareholders' Equity

Since December 31, 2005, our shareholders' equity has increased 13.8% to €44.9 billion at September 30, 2006. Our strong net income more than compensated for a rise in negative foreign currency translation adjustments primarily due to a weaker U.S. Dollar compared to the Euro, and dividends paid of €811 million.

The following graph sets forth the development of our shareholders' equity in the first nine months of 2006.

### Shareholders' Equity<sup>1)</sup>

in € mn

<sup>1)</sup> Does not include minority interests.

<sup>2)</sup> Consists of the following developments (in € mn): foreign currency translation adjustments (797); changes in the consolidated subsidiaries of the Allianz Group 45; treasury shares 1,266; net income 5,649; dividends paid (811); miscellaneous 21.

### Invested Assets

In the following, we present the breakdown of invested assets owned and managed by our Property-Casualty, Life/Health and Banking segments by category and instruments.

### Invested Assets – Property-Casualty: Allocation by Category and Instruments at September 30, 2006

Fair Values<sup>1)</sup> in € bn (Total: €99.9 bn)

<sup>1)</sup> Held-to-maturity investments and real estate held for investment are stated at amortized cost. Investments in associates and joint ventures are stated at either amortized cost or equity, depending upon, among other factors, our ownership percentage.

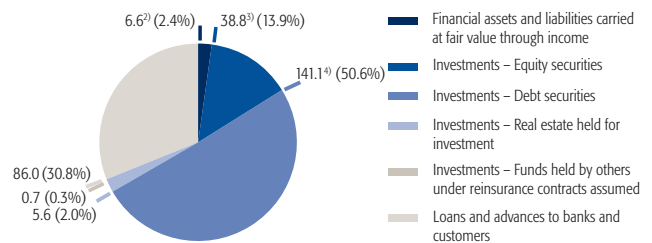

<sup>2)</sup> Includes debt securities at €3.6 bn and equity securities at €0.3 bn.

<sup>3)</sup> Includes associates and joint ventures at €0.8 bn, but does not include affiliates at €9.3 bn.

<sup>4)</sup> Includes held-to-maturity investments at €0.7 bn.

### Invested Assets – Life/Health: Allocation by Category and Instruments at September 30, 2006

Fair Values<sup>1)</sup> in € bn (Total: €278.8 bn)

<sup>1)</sup> Held-to-maturity investments and real estate held for investment are stated at amortized cost. Investments in associates and joint ventures are stated at either amortized cost or equity, depending upon, among other factors, our ownership percentage.

<sup>2)</sup> Includes debt securities at €7.4 bn, equity securities at €2.8 bn and derivative financial instruments at €(3.6) bn.

<sup>3)</sup> Includes associates and joint ventures at €2.1 bn, but does not include affiliates at €2.7 bn.

<sup>4)</sup> Includes held-to-maturity investments at €4.0 bn.

### Invested Assets – Banking: Trading Portfolio Allocation at September 30, 2006

Fair Values in € bn

## Corporate Segment

In July 2006, a subsidiary of Allianz SE (formerly Allianz AG), which is managed by Allianz Capital Partners and in which Allianz Capital Partners holds an interest of 65%, acquired all shares of MAN Roland Druckmaschinen AG. This acquisition had an impact of a similar magnitude both on our Corporate segment's operating revenues and operating expenses. The increases in realized gains/losses (net) stemmed primarily from the sale of our shareholdings in Schering AG in June 2006 and the disposal of Four Seasons Healthcare Ltd. in August 2006.

	Three months ended September 30,		Nine months ended September 30,

## Events After the Balance Sheet Date

See Note 41 to our consolidated financial statements.

# Property-Casualty Insurance Operations

## Continued underwriting excellence.

- › Effective cycle management.
- › Excellent combined ratio across all regions.
- › Combined ratio of 90.2% in 3Q 2006, down 8.4 percentage points from a year ago.

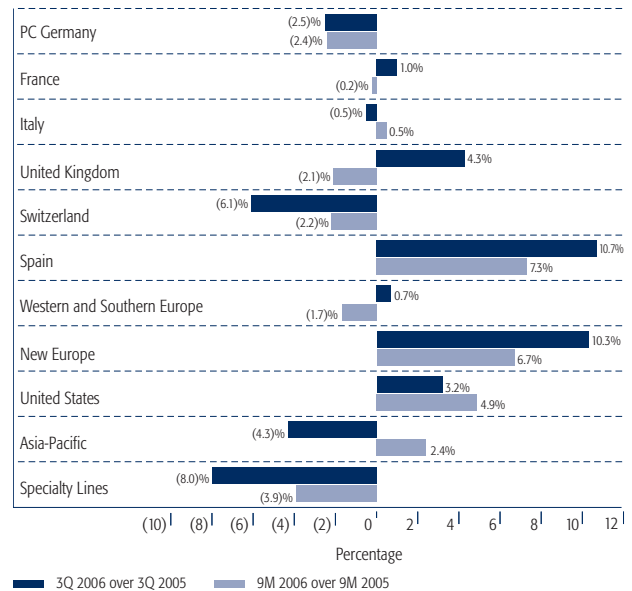

### Earnings Summary

Gross Premiums Written by Region<sup>1)</sup>  
in € bn

<sup>1)</sup> After elimination of transactions between Allianz Group companies in different geographic regions and different segments. Gross premiums written from our speciality lines have been allocated to the respective geographic regions.

Gross Premiums Written – Growth Rates<sup>1)</sup>

<sup>1)</sup> Before elimination of transactions between Allianz Group companies in different geographic regions and different segments.

### Gross Premiums Written 2006 to 2005 Three Month Comparison

We continued to forego premium growth in softening markets with increasing pricing pressures. As a result of our successful cycle management efforts, the modest rise of gross premiums written from €10,368 million to €10,412 million in 3Q 2006 was accompanied by further improved underwriting profitability. Based on internal growth, gross premiums written increased 1.8%.

Positive developments were primarily experienced by our entities in the United States, Spain and the United Kingdom, with additional gross

premiums written of €50 million (+ 3.2%), €43 million (+ 10.7%) and €24 million (+ 4.3%) respectively. We furthermore successfully achieved strong increases within New Europe, our growth markets in Central and Eastern Europe, and South America. In these regions, gross premiums written grew by €43 million (+10.3%) and €26 million (+ 14.4%), respectively. In 3Q 2006, our growth markets in Asia-Pacific and New Europe, together with the markets in South America, accounted for approximately 10% of our Property-Casualty segment's gross premiums written.

In the United States, our operations benefited primarily from growth in our crop insurance line due to higher prices on major crops and higher rates on nursery coverage. The positive development in Spain was mainly attributable to our motor and industrial lines of business. At Cornhill in the United Kingdom, our commercial lines performed favorably.

Similarly, in Brazil, continued good development of our motor business was a key growth factor. In addition, foreign currency effects, in particular the appreciation of the Brazilian Real compared to the Euro, added to the rise in South America.

Within New Europe, in Romania, the increase in gross premiums written was driven by a new large insurance contract in our aviation business and strong sales performance in our retail business. Our Polish motor business benefited from expanded sales capacity.

These increases were offset by decreased gross premiums written in other countries.

At Allianz Sach within PC Germany, our primary market, gross premiums written were impacted by lower volume within our motor business, partially compensated by sound development in our casualty line. At Allianz Re assumed gross premium volume declined, mainly impacted by the change of an intra-Allianz Group reinsurance contract, resulting in increased aggregate loss retention levels of participating entities. This effect, however, is consolidated out at the segment level.

In Australia, gross premiums written were impacted by softening market conditions in our commercial business. Additionally, the depreciation of the Australian Dollar against the Euro contributed to the decline.

The decrease in Switzerland was the net effect of an increase in gross premiums written at Allianz Suisse, whereas at Allianz Risk Transfer (or "ART") premium volume was down. Allianz Suisse continued to benefit from our favorably developing motor business. At ART, the shortfall occurred as premiums in connection with a long-term contract with a major client were recognized in 4Q 2005.

In specialty lines the decline by €113 million, or 8.0%, was due to lower gross premiums written at Allianz Global Corporate & Specialty. Gross premiums written at Allianz Global Corporate & Specialty were down €106 million to €649 million, primarily due to foregone business volume as a result of declining rates.

### 2006 to 2005 Nine Month Comparison

For the first nine months of 2006, our gross premiums written increased marginally by 0.4% to €34,243 million. We were able to achieve growth particularly in the United States, South America, Spain and New Europe. However, while maintaining our strategy of selective and profitable growth, we recorded slight decreases in some of our other markets. Based on internal growth, our gross premiums written were up slightly by 0.5%.

## Operating Profit

### Operating Profit

in € mn

### 2006 to 2005 Three Month Comparison

Our **operating profit** increased markedly to €1,727 million, a rise of 74.1% from a year earlier. The main driver behind this strong development was our significantly enhanced underwriting profitability. The exceptionally high losses from major natural catastrophes in the prior year period were not repeated. Further, our underwriting discipline and the improvements in connection with our Sustainability program are paying off. Top contributing markets to our operating profit included PC Germany at €454 million, Italy at €209 million, the United States at €201 million, as well as our credit insurance activities combined within our Euler Hermes brand at €111 million. The strongest improvements occurred at Allianz Global Corporate & Specialty (€281 million), as well as in our operations within the United States (€209 million), Switzerland (€53 million) and Italy (€45 million).

**Claims and insurance benefits incurred (net)** decreased considerably by 12.2% to €6,208 million. In the prior year period, major natural catastrophes in the United States, Central Europe and Asia inflicted huge damages, heavily impacting the insurance and reinsurance markets as a whole. These damages were not repeated in 3Q 2006. Our calendar year **loss ratio** declined to 64.2% (3Q 2005: 73.0%). On an accident year basis, claims also markedly decreased 13.0% to €6,320 million, producing an accident year loss ratio of 65.3% (3Q 2005: 74.9%), mainly driven by the developments described above. However, even after excluding the impacts from natural catastrophes, we continued to improve our already excellent underwriting profitability.

**Acquisition and administrative expenses (net)** remained relatively stable at €2,512 million (3Q 2005: €2,481 million), largely in line with our premium development. Together with a marginal decline in our premiums earned (net), our **expense ratio** rose slightly by 0.4 percentage points to 26.0% from 25.6% a year earlier.

Driven by the development of our loss ratio, our **combined ratio** improved significantly by 8.4 percentage points to 90.2%, further solidifying our competitive position within the property-casualty market.

#### 2006 to 2005 Nine Month Comparison

We succeeded in increasing **operating profit** for the first nine months of 2006 by 28.6% compared to the prior year period to €4,958 million. At 92.2%, our **combined ratio** was 2.7 percentage points lower than a year ago. Similar to the developments in 3Q 2006 previously described, these improvements were mainly attributable to significantly lower claims from natural catastrophes, together with our focus on continuous underwriting excellence.

#### Non-Operating Items

##### 2006 to 2005 Three Month Comparison

Income from our **non-operating items** decreased €49 million to €139 million. In 3Q 2006, a significant realized gain resulted from the disposal of our wholly-owned subsidiary Four Seasons Healthcare Ltd. However, higher **net realized gains from investments, not shared with policyholders**, were more than offset by increased net **impairments of investments**, stemming in large part from our available-for-sale debt securities.

##### 2006 to 2005 Nine Month Comparison

Income from our **non-operating items** for the first nine months of 2006 amounted to €1,007 million, up 25.2% from a year ago. This increase was particularly driven by increased **realized gains/losses (net) from investments, not shared with policyholders**, especially through the sale of our participation in Schering AG in 2Q 2006. Net realizations on investments proved a compensating balance for **restructuring charges** of €366 million, primarily in connection with the reorganization of our German insurance operations.

#### Net Income

##### 2006 to 2005 Three Month Comparison

**Net income** more than doubled from a year ago to €1,089 million, driven by the significant growth in our operating profit.

**Income tax expenses** amounted to €600 million, rising by 17.0%. This increase resulted mainly from our higher **income before income taxes and minority interests in earnings**. Our effective tax rate declined to 32.2% (3Q 2005: 43.5%) due to the absence of one-off tax charges experienced in the prior year period.

**Minority interests in earnings** rose slightly to €177 million primarily as a result of higher earnings at AGF in France, which more than compensated for lower minority interests at RAS in Italy following the partial buy-out of minorities in 2005.

##### 2006 to 2005 Nine Month Comparison

Driven both by our significantly improved operating profitability and increased non-operating income, our **net income** for the first nine months of 2006 was up markedly by 44.8% to €3,771 million. Due to the effects of a relatively higher share of tax-exempt income, primarily from the Schering transaction, our effective tax rate decreased to 26.7% (9M 2005: 32.1%).

The following table sets forth our Property-Casualty insurance segment's income statement, loss ratio, expense ratio and combined ratio for the three and nine months ended September 30, 2006 and 2005, respectively.

<sup>1)</sup> For the Property-Casualty segment, total revenues are measured based upon gross premiums written.

<sup>2)</sup> The total of these items equals income from financial assets and liabilities carried at fair value through income (net) in the segment income statement in Note 3 to the consolidated financial statements.

<sup>3)</sup> The total of these items equals realized gains/losses (net) in the segment income statement in Note 3 to the consolidated financial statements.

<sup>4)</sup> The total of these items equals impairments of investments (net) in the segment income statement in Note 3 to the consolidated financial statements.

<sup>5)</sup> Represents claims and insurance benefits incurred (net) divided by premiums earned (net).

<sup>6)</sup> Represents acquisition and administrative expenses (net) divided by premiums earned (net).

<sup>7)</sup> Represents the total of acquisition and administrative expenses (net) and claims and insurance benefits incurred (net) divided by premiums earned (net).

## Property-Casualty Operations by Geographic Region

The following tables set forth our property-casualty gross premiums written, premiums earned (net), combined ratio, loss ratio, expense ratio and operating profit by geographic region for the three and nine months ended September 30, 2006 and 2005, respectively. Consistent with our general practice, gross premiums written, premiums earned (net), combined ratio, loss ratio, expense ratio and operating profit by geographic region are presented before consolidation adjustments, representing the elimination of transactions between Allianz Group companies in different geographic regions and different segments.

Statutory Premiums – Growth Rates<sup>1)</sup>

<sup>1)</sup> Before elimination of transactions between Allianz Group companies in different geographic regions and different segments.

### Statutory Premiums

#### 2006 to 2005 Three Month Comparison

Our statutory premiums at €9,847 million in 3Q 2006 remained sound and we continued to experience solid increases both in some of our more mature and emerging markets. In the context of our Sustainability program the leveraging of our worldwide life insurance product expertise, has begun to contribute to our revenues. However, in aggregate, statutory premiums were down 11.8% from a year earlier. This development was mainly attributable to declines in the United States and Italy. Based on internal growth, our statutory premiums decreased 10.9%.

In France, our entities continued to enjoy strong sales momentum with unit-linked contracts, achieved through our proprietary financial

advisors network and through partnerships with independent advisors. This drove a 6.4% rise, with statutory premiums reaching €1,313 million.

Germany Life again experienced strong production of new single premium business leading to total statutory premiums in 3Q 2006 of €2,640 million, an increase of €45 million from 3Q 2005.

Within New Europe, our growth markets in Central and Eastern Europe, our Polish operations continued to benefit from a successful sales campaign with a bank partner in 1Q 2006, evidenced by statutory premiums which more than doubled to €76 million in 3Q 2006.

Conversely, at Allianz Life in the United States, statutory premiums decreased 24.9% to €2,144 million, as the sale of equity-indexed annuity products fell short of their prior year level. We attribute this

decrease primarily to the impact of the NASD's<sup>1)</sup> notice in late 2005 to members regarding the sale of index annuities which has created impediments to sales of equity index annuities. Allianz Life is taking action to regain growth momentum by expanding distribution with the broker-dealers, banks and wire-houses, designing channel-specific products, and at the same time reinforcing core strengths in product development of variable products and fixed indexed products.

As expected, statutory premiums were down in Italy. In aggregate, RAS and Lloyd Adriatico experienced a decline of 36.0% to €1,267 million in 3Q 2006, negatively influenced by the difficult market environment. In addition, adverse developments within our bancassurance distribution channel continued to make an impact. At RAS, our share in the total life production of our joint venture partner reduced as expected, while at Lloyd Adriatico, we remained confronted with challenges due to organizational changes at our joint venture partner.

The decrease in statutory premiums by 7.6% to €835 million from our operations in Asia-Pacific, was the net effect of strong increases in South Korea and China, overcompensated by lower premium volume in Taiwan. At Allianz Life Insurance Co. Ltd. in South Korea, we were able to maintain statutory premium momentum from our continued strong sales performance with equity-indexed and variable annuity products. This led to a significant increase in statutory premiums of 30.1% to €467 million. In China, we started to benefit from our cooperation with Industrial and Commercial Bank of China Ltd. In contrast, in Taiwan, statutory premiums decreased 40.8% to €296 million.

### 2006 to 2005 Nine Month Comparison

Our statutory premiums decreased 1.5% to €34,600 million. Whereas we experienced strong growth in most of our life insurance markets, such as Germany, France, Asia-Pacific and New Europe, the developments in the United States and Italy did not vary from those in 3Q. Based on internal growth, our statutory premiums were down 2.3%.

### Operating Profit

#### Operating Profit

in € mn

### 2006 to 2005 Three Month Comparison

**Operating profit** was €617 million in 3Q 2006, up 11.0% from a year earlier. The most important factors driving this increase were our strong asset base after the segment's growth in recent years and higher trending equity markets, as well as our improved new business margin.

The markets which contributed strongest to operating profit were Germany Life at €208 million, France at €95 million, the United States at €91 million and Italy at €66 million.

**Interest and similar income** rose by 9.2% to €3,093 million. This development was in large part due to higher interest income from bonds in the United States through increased yields and growth in our asset base, as well as higher dividend distributions from equity investments at Germany Life.

**Realized gains/losses (net) from investments, shared with policyholders**, were up 3.5% to €537 million predominantly from the sale of Four Seasons Healthcare Ltd.

**Acquisition and administrative expenses (net)** rose by 17.4% to €1,132 million, reflecting in particular increased acquisition expenses due to higher amortization of deferred acquisition costs. Factors important for this development were increased lapses in Italy, whereas the corresponding surrender gains are not shown in the expense line item, and the change of an intra-Allianz Group reinsurance contract. Consequently, together with the shortfall in statutory premiums (net), our **statutory expense ratio** increased to 11.7% from 8.8% a year ago.

**Income from financial assets and liabilities carried at fair value through income (net)** resulted in an overall expense of €20 million, after an income of €290 million last year. Germany Life exhibited expenses due to the retrospective release of hedging connections. In addition, in the United States, we experienced lower income due to, among other factors, an increase in market interest rates.

While **claims and insurance benefits incurred (net)** increased, **changes in reserves for insurance and investment contracts (net)** were down by a similar magnitude, resulting in aggregate, in charges of €6,204 million, consistent with a year ago. The increase of claims and insurance benefits incurred (net) from €3,836 million to €3,942 million stemmed in large part from higher lapses and surrender rates in our operations within Italy, as well as the maturity of savings products at Allianz Life Insurance Co. Ltd. in South Korea. Changes in reserves for insurance and investment contracts (net) were down €117 million to €2,262 million in particular due to decreased statutory premium volume in Italy and the United States. Additionally, a change in product mix in South Korea, reflected by higher sales of separate account variable annuity contracts, contributed to decreased net expenses from changes in reserves.

<sup>1)</sup> The National Association of Securities Dealers (or "NASD") is a private-sector provider of financial regulatory services in the United States.

### 2006 to 2005 Nine Month Comparison

**Operating profit** was up 20.8% to €1,867 million. One of the key drivers of this development was **interest and similar income**, which showed a significant increase, primarily through higher dividend payments from equity investments. To a lesser degree, operating profit benefited from higher **realized gains/losses (net) from investments, shared with policyholders**, especially from the Schering transaction in 2Q 2006.

### Non-Operating Items

#### 2006 to 2005 Three Month Comparison

**Non-operating items** were down €36 million to a charge of €8 million. This development resulted from lower **realized gains/losses (net) from investments, not shared with policyholders**, which fell €33 million in large part due to realized gains at RAS from the sale of its remaining interest in Mediobanca in 3Q 2005.

#### 2006 to 2005 Nine Month Comparison

Similar to the development in 3Q, during the first nine months of 2006 we recorded €20 million decline in non-operating income to €133 million, primarily from **non-operating restructuring charges** in 2Q 2006 within our German life and health businesses.

### Net Income

#### 2006 to 2005 Three Month Comparison

Despite an increased **income before income taxes and minority interests in earnings**, our **net income** was down 12.7% to €288 million, impacted by income tax expenses which almost doubled from last year. This drove our effective tax rate to 39.4% from 21.3%.

**Minority interests in earnings** were down 37.7% to €81 million, mainly through lower income after taxes and before minority interests at AGF and RAS. An additional factor in this development was the buy-out of minority shares at our Italian subsidiary RAS.

#### 2006 to 2005 Nine Month Comparison

**Net income** for the first nine months of 2006 rose by 7.9% to €1,150 million, driven by our strong operating profit development.

**Income tax expenses** doubled to €549 million, with an effective tax rate of 27.4% (9M 2005: 16.2%). At a relatively constant income after taxes and before minority interests, **minority interests in earnings** were down €57 million from a year earlier to €301 million primarily as a result of the buy-out at RAS previously mentioned.

The following table sets forth our Life/Health insurance segment's income statement and statutory expense ratio for the three and nine months ended September 30, 2006 and 2005, respectively.

<sup>1)</sup> For the Life/Health segment, total revenues are measured based upon statutory premiums. Statutory premiums are gross premiums written from sales of life insurance policies, as well as gross receipts from sales of unit-linked and other investment-oriented products, in accordance with the statutory accounting practices applicable in the insurer's home jurisdiction.

<sup>2)</sup> The total of these items equals realized gains/losses (net) in the segment income statement in Note 3 to the consolidated financial statements.

<sup>3)</sup> The total of these items equals restructuring charges in the segment income statement in Note 3 to the consolidated financial statements.

<sup>4)</sup> Represents acquisition and administrative expenses (net) divided by statutory premiums (net).

## Life/Health Operations by Geographic Region

The following tables set forth our life/health statutory premiums, premiums earned (net), statutory expense ratio and operating profit by geographic region for the three and nine months ended September 30, 2006 and 2005, respectively. Consistent with our general practice, statutory premiums, premiums earned (net), statutory expense ratio and operating profit by geographic region are presented before consolidation adjustments, representing the elimination of transactions between Allianz Group companies in different geographic regions and different segments.

# Banking Operations

## On track to achieve ambitious full year targets.

- › Operating revenues stable.
- › Sustainable operating profit improvement continued.
- › Significantly improved cost-income ratio.

### Earnings Summary

The results of operations of our Banking segment are almost exclusively represented by Dresdner Bank, accounting for 96.1% of our total Banking segment's operating revenues for the first nine months of 2006 (9M 2005: 95.8%). Accordingly, the discussion of our Banking segment's results of operations relates solely to the operations of Dresdner Bank.

### Operating Revenues

#### 2006 to 2005 Three Month Comparison

**Operating revenues**, at €1,521 million in 3Q 2006, were on a par with a year earlier despite lower trading income in a challenging market environment. Overall, significantly higher net interest income made up for decreased trading income (net), while net fee and commission income was flat.

**Net interest income** amounted to €695 million, up 35.2% from a year ago. Excluding the impact of accounting for derivative financial instruments which do not qualify for hedge accounting, net interest income increased 5.2%. In our operating divisions, Private & Business Clients (or "PBC") and Corporate & Investment Banking (or "CIB"), net interest income was relatively stable. In PBC, our favorably developing deposit business more than compensated for lower net interest income from our loan business.

At €631 million, **net fee and commission income** was rather unchanged. Our operating divisions developed favorably with PBC experiencing increased income from closed-end funds, compensating for lower income from the securities business, and CIB generating higher fee income from its investment banking activities.

**Trading income (net)** was down 48.5% to €188 million primarily in our derivative business due to low activities stemming from an uncertain market environment and unfavorable conditions in July and August. In September, trading income (net) recovered.

### 2006 to 2005 Nine Month Comparison

**Operating revenues** increased considerably by 14.6% to €5,114 million. This strong growth resulted from positive developments in all revenue categories and both operating divisions.

### Operating Profit

#### 2006 to 2005 Three Month Comparison

**Operating profit** grew to €311 million, up 38.2% from a year earlier. While slightly increased revenues also helped in this development, decreases of both bonus-related and non-bonus-related personnel expenses were the key drivers.

**Operating expenses** declined 11.0% to €1,259 million, of which **administrative expenses** amounted to €1,237 million, down 10.9%. Administrative expenses declined due to a reduction in revenue-linked bonuses and related social security expenses, reflecting the revenue development in our CIB division. Additionally, administrative expenses benefited from further efficiency gains, resulting from, among other factors, a reduction in headcount after the closure of our Institutional Restructuring Unit (or "IRU"). As a result of the stable development of our operating revenues and declining operating expenses, our **cost-income ratio** improved significantly by 10.9 percentage points to 82.8%.

**Loan loss provisions** experienced a net release of €49 million. Adequate reserving for current risks with gross additions of €103 million was in line with the improved quality of our loan portfolio following the successful completion of the wind-down of our IRU portfolio in 2005. Gross additions were more than offset by recoveries from loans previously written off and releases of provisions of, in aggregate, €152 million.

### 2006 to 2005 Nine Month Comparison

**Operating profit** increased significantly to €1,159 million, up 81.4%. This strong development was largely attributable to the dynamic growth in **operating revenues**, whereas **operating expenses** were only 3.2% higher. We successfully drove down our **cost-income ratio** by 8.8 percentage points to 78.8%. **Loan loss provisions** resulted in a net release of €77 million, compared to an €84 million net release in the prior year period. Similar to a year ago, high recoveries of loans and releases of provisions were key factors in this development. At September 30, 2006, our **coverage ratio** was 59.8%, up 1.0 percentage point from September 30, 2005.

### Operating Profit – Dresdner Bank

in € mn

### Non-Operating Items

#### 2006 to 2005 Three Month Comparison

In aggregate, net expenses from **non-operating items** were €8 million, down €21 million from a year ago. **Realized gains/losses (net)** of €73 million were, in large part, connected to the sale of a subsidiary. **Restructuring charges** amounted to €33 million (3Q 2005: €5 million) and **impairments of investments (net)** to €(48) million (3Q 2005: €(24) million). Restructuring charges reflected the initial impact from our “Neue Dresdner Plus program”.

#### 2006 to 2005 Nine Month Comparison

The significant decline in income from **non-operating items** by 38.0% was mainly attributable to reduced **realized gains/losses (net)**. In addition, higher **restructuring charges** were incurred, resulting primarily from the “Neue Dresdner Plus program”.

### Net Income

#### 2006 to 2005 Three Month Comparison

**Net income** more-than-doubled to €230 million. This development reflected, in particular, our strong operating profit growth. Conversely, **income tax expenses** decreased from €64 million to €56 million, reflecting an effective tax rate of 18.5% (3Q 2005: 32.6%). Income taxes benefited from tax-exempt realized gains in 3Q 2006.

#### 2006 to 2005 Nine Month Comparison

**Net income** increased 16.8% to €1,086 million. Driven by strong **operating profit** growth, **income tax expenses** rose by €118 million to €406 million. Our effective income tax rate was 26.1%, compared to 22.5% a year earlier. In 1Q 2005 and 2006, similar significant tax-exempt gains from the sale of Munich Re shares were realized, which had a larger impact on the 9M 2005 effective tax rate due to a lower **income before income taxes and minority interests in earnings** compared to that for the first nine months of 2006.

The following table sets forth the income statements and cost-income ratios for both our Banking segment as a whole and Dresdner Bank for the three and nine months ended September 30, 2006 and 2005, respectively.

<sup>1)</sup> Consists of Dresdner Bank and non-Dresdner Bank banking operations within our Banking segment, as well as the elimination of trading income (net) of €(81) mn and €– mn at Dresdner Bank resulting from Dresdner Bank's trading activities in Allianz SE shares in 3Q and 9M 2006, respectively.

<sup>2)</sup> Represents interest and similar income less interest expense.

<sup>3)</sup> Represents fee and commission income less fee and commission expense.

<sup>4)</sup> The total of these items equals income from financial assets and liabilities carried at fair value through income (net) in the segment income statement in Note 3 to the consolidated financial statements.

<sup>5)</sup> For the Banking segment, total revenues are measured based upon operating revenues.

<sup>6)</sup> Represents operating expenses divided by operating revenues.

## Banking Operations by Division

The following tables set forth our banking operating revenues, operating profit and cost-income ratio by division for the three and nine months ended September 30, 2006 and 2005, respectively. Consistent with our general practice, operating revenues, operating profit and cost-income ratio by division are presented before consolidation adjustments, representing the elimination of transactions between Allianz Group companies in different segments.

	Three months ended September 30,

<b>Dresdner Bank</b>	<b>5,114</b>	<b>1,159</b>	<b>78.8</b>	<b>4,463</b>	<b>639</b>	<b>87.6</b>
Other Banks <sup>4)</sup>	208	60	71.6 <sup>5)</sup>	198	57	73.7
<b>Total</b>	<b>5,322</b>	<b>1,219</b>	<b>78.6</b>	<b>4,661</b>	<b>696</b>	<b>87.0</b>

<sup>1)</sup> Our reporting by divisions reflects the organizational changes within Dresdner Bank in 2006 resulting in two operating divisions. Private & Business Clients combines all banking activities for private and corporate customers formerly provided by the Personal Banking and Private & Business Banking divisions. Furthermore, Corporate & Investment Banking combines the former Corporate Banking and Dresdner Kleinwort Wasserstein divisions. Following a decision taken in June 2006, we will integrate our business activities with medium-sized business clients into that with private and corporate customers. In the table above, our medium-sized business clients are still included in Corporate & Investment Banking. The final new business model with two new organizational units Private & Corporate Clients and Investment Banking is not reflected in the table above.

<sup>2)</sup> The Corporate Other division contains income and expense items that are not assigned to Dresdner Bank's operating divisions. These items include, in particular, impacts from the accounting for derivative financial instruments which do not qualify for hedge accounting, provisioning requirements for country and general risks, as well as realized gains and losses from Dresdner Bank's non-strategic investment portfolio. For the three and nine months ended September 30, 2006, the impact from the accounting for derivative financial instruments which do not qualify for hedge accounting on Corporate Other's operating revenues amounted to €(35) mn and €(49) mn, respectively (2005: €(154) mn and €(81) mn, respectively). With effect from 1Q 2006, the majority of expenses for support functions and central projects previously included within Corporate Other have been allocated to the operating divisions. Additionally, the non-strategic Institutional Restructuring Unit (or "IRU") was closed down effective September 30, 2005 having successfully completed its mandate to free-up risk capital through the reduction of risk-weighted assets. Furthermore, effective in 1Q 2006, and as a result of Dresdner Bank restructuring its divisions, the IRU's 2005 results of operations were reclassified into Corporate Other. Prior year balances have been adjusted to reflect these reclassifications and allow for comparability across periods.

<sup>3)</sup> Presentation not meaningful.

<sup>4)</sup> Consists of non-Dresdner Bank banking operations within our Banking segment, as well as the elimination of trading income (net) of €(81) mn and €– mn at Dresdner Bank resulting from Dresdner Bank's trading activities in Allianz SE shares in 3Q and 9M 2006, respectively.

<sup>5)</sup> Excludes the impact from the elimination of trading income (net) at Dresdner Bank resulting from Dresdner Bank's trading activities in Allianz SE shares.

# Asset Management Operations

## Strong operating profitability maintained.

- › Net inflows, at €25 billion in the first nine months of 2006, strengthened again.
- › Strong operating profit in 3Q 2006, as in the prior year.
- › Cost-income ratio remains at a very competitive level.

### Third-Party Assets Under Management

Overall, in the first nine months of 2006, we were faced with a volatile and challenging market environment. Whereas in the first and third quarter, equity capital markets developed favorably worldwide, the second quarter showed substantial declines in market values. In the fixed income capital markets, substantial decreases in market values occurred throughout the first half of the year, following the increases in market interest rates, only recovering during the last quarter. Additionally, net flows in the fixed income mutual fund market in the United States and Germany turned negative during 2Q 2006, a development which persisted in Germany during the third quarter.

Despite this challenging market environment, net inflows to third-party assets strengthened again in 3Q 2006, reaching €25 billion in the first nine months of the year. Both fixed income and equity products contributed to the positive development, which bolstered our strong position as one of the largest asset managers, based on total assets under management.<sup>1)</sup>

A key success factor continued to be our competitive investment performance. The overwhelming majority of the third-party assets we manage again outperformed their respective benchmarks. Market-related appreciation was €25 billion. Net inflows and positive market effects were partly offset by negative effects of €38 billion from exchange rate movements, resulting primarily from a weaker U.S. Dollar versus the Euro. As a consequence, on a Euro-basis, our third-party assets increased by a net €12 billion to €755 billion at September 30, 2006, compared to €743 billion at December 31, 2005.

Our major achievements in the first nine months of 2006 included the following:

#### United States

- Allianz/PIMCO Funds were named “Best Mutual Fund Family of 2005” in the annual Lipper/Barron’s Fund Families Survey.
- Particularly strong net inflows of approximately €5 billion at our equity fund manager NFJ Investment Group.
- PIMCO Commodity Real Return Funds began trading on June 29, 2006 and already successfully raised USD 425 million in assets.
- PIMCO was named “Investor of the Year 2005” by Securitization News.

#### Germany

- Allianz Global Investors Germany in market-leading positions concerning net inflows in special funds (as of June 2006) and in equity mutual funds (as of September 2006).<sup>2)</sup>
- Deutscher Investment Trust (or “dit”) ranked first in the “Most Improved Group” of Standard & Poor’s German Fund Awards 2006.
- dit was awarded five stars by German financial magazine “Capital”, the highest possible score.

We operate our third-party asset management business primarily through Allianz Global Investors (or “AGI”). At September 30, 2006, AGI managed approximately 94.7% (December 31, 2005: 95.2%) of our third-party assets. The remaining assets are managed by Dresdner Bank (approximately 2.8% and 2.3% at September 30, 2006 and December 31, 2005, respectively) and other Allianz Group companies (approximately 2.5% both at September 30, 2006 and December 31, 2005).

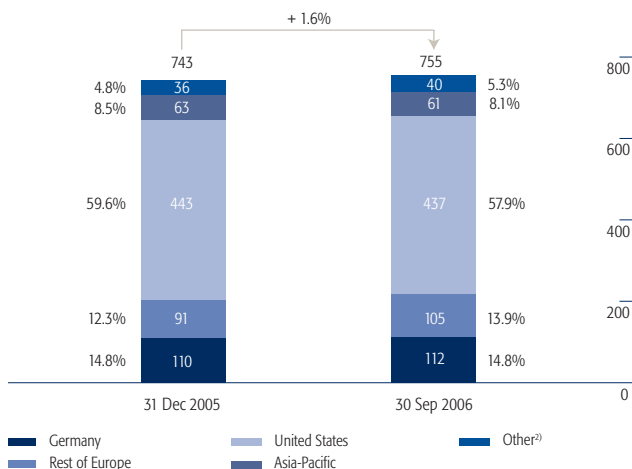

<sup>1)</sup> Source: Own internal analysis and estimates.

<sup>2)</sup> Source: Bundesverband Investment and Asset Management (or “BVI”), an association representing the German investment fund industry.

The following graphs present the third-party assets managed by the Allianz Group by geographic region, investment category and investor class at September 30, 2006 and December 31, 2005, respectively.

### Earnings Summary

The results of operations of our Asset Management segment are almost exclusively represented by AGI, accounting for 98.3% and 99.3% of our total Asset Management segment's operating revenues and operating profit, respectively, in 3Q 2006 (3Q 2005: 98.2% and 98.0%). Accordingly, the discussion of our Asset Management segment's results of operations relates solely to the operations of AGI.

### Operating Revenues

#### 2006 to 2005 Three Month Comparison

**Operating revenues** increased 2.4% from a year ago to €714 million in 3Q 2006, of which **net fee and commission income** amounted to €689 million, up 3.0%. Higher asset-based management fees, primarily reflecting our third-party asset growth, was the key factor in this development. Partially offsetting were negative foreign currency effects from the depreciation of the U.S. Dollar compared to the Euro. Internal operating revenue growth was 6.4%.

#### 2006 to 2005 Nine Month Comparison

At €2,166 million for the first nine months of 2006, **operating revenues** showed a solid rise of 14.8% from a year earlier. In addition to our increased third-party asset base previously mentioned, this growth reflected higher management fees, in particular from our further strengthened equity business. Internal growth of operating revenues at 14.3% was slightly less, mainly attributable to the appreciation of the U.S. Dollar compared to the Euro in the nine month comparison.

The following table sets forth the composition of AGI's net fee and commission income.

	Three months ended September 30,		Nine months ended September 30,	
	2006 € mn	2005 € mn	2006 € mn	2005 € mn
Fee and commission income, thereof:	984	952	3,013	2,612

Performance fees	5	21	30	42
Other	86	69	261	196
Fee and commission expenses, thereof:	(295)	(283)	(919)	(781)
Commissions	(214)	(211)	(663)	(588)
Other	(81)	(72)	(256)	(193)
<b>Net fee and commission income</b>	<b>689</b>	<b>669</b>	<b>2,094</b>	<b>1,831</b>

## Operating Profit

### 2006 to 2005 Three Month Comparison

We generated **operating profit** of €292 million, a slight decline by 0.7% compared to the prior year period. Excluding effects related to foreign currency translation and changes in scope of consolidation, operating profit would have improved by 1.8%. Our operations in the United States contributed most, with operating profit reaching €237 million, up 8.0%, despite the challenging market environment in 3Q 2006.

**Operating expenses** increased 4.7% to €422 million, comprising personnel related expenses of €278 million and non-personnel related expenses of €144 million. This development was in line with our business expansion and higher headcount. Additionally, key strategic future growth investments in Germany, Europe and Asia contributed to increased operating expenses. Consequently our **cost-income ratio** reached 59.1%, 1.3 percentage points higher than a year ago.

### 2006 to 2005 Nine Month Comparison

Our **operating profit** rose by €115 million to €887 million. Internal growth was €113 million or 14.8%. **Operating expenses** increased 14.8% to €1,279 million. Thereof, personnel-related expenses amounted to €829 million, up 17.1%, and non-personnel-related expenses amounted to €450 million, up 10.8%. In addition to the developments previously mentioned in the three month comparison, personnel-related expenses increased due to higher performance-linked compensation primarily in the United States, in line with the positive business development and higher headcount. At 59.0%, our **cost-income ratio** remained stable and at a very competitive level.

## Operating Profit – Allianz Global Investors

in € mn

## Non-Operating Items

### 2006 to 2005 Three Month Comparison

**Acquisition-related expenses** dropped from €214 million in the prior year period to €134 million in 3Q 2006, a decline of 37.4%. This development was mainly driven by a lower number of outstanding PIMCO LLC Class B Units (or “Class B Units”). As of September 30, 2006, the Allianz Group had acquired 21,762 of the 150,000 units originally outstanding.

Going forward, we expect acquisition-related expenses to be mainly driven by our operating profit development.

### 2006 to 2005 Nine Month Comparison

**Acquisition-related expenses** and **amortization of intangible assets**, in aggregate, decreased 27.2% to €404 million. In addition to the lower number of outstanding Class B Units just mentioned, the expiration of amortization charges relating to capitalized loyalty bonuses for PIMCO management in 2Q 2005 also contributed to this development.

## Net Income

### 2006 to 2005 Three Month Comparison

At €82 million, **net income** more than doubled from €38 million a year ago. Excluding effects from foreign currency translation, net income would have improved by €47 million. **Income tax expenses** reached €67 million (3Q 2005: €32 million), mainly driven by significantly increased taxable income in the United States.

### 2006 to 2005 Nine Month Comparison

**Net income** grew dynamically by 83.7% to €259 million, including positive effects from exchange rate movements of €2 million. **Income tax expenses** were up to €193 million from €49 million a year ago, mainly resulting from the significantly increased taxable income in the United States previously mentioned and a one-off deferred tax credit of €37 million in the United States related to tax deductible goodwill amortization in 2Q 2005.

The following table sets forth the income statements and cost-income ratios for both our Asset Management segment as a whole and AGI for the three and nine months ended September 30, 2006 and 2005, respectively.

<sup>1)</sup> Represents fee and commission income less fee and commission expense.

<sup>2)</sup> Represents interest and similar income less interest expense and investment expenses.

<sup>3)</sup> For the Asset Management segment, total revenues are measured based upon operating revenues.

<sup>4)</sup> The total of these items equals acquisition and administrative expenses (net) in the segment income statement in Note 3 to the consolidated financial statements.

<sup>5)</sup> Consists of retention payments for the management and employees of PIMCO and Nicholas Applegate. These retention payments largely expired in 2005.

<sup>6)</sup> Consists of amortization charges relating to capitalized bonuses for PIMCO management. These amortization charges expired in 2005. Until December 31, 2005, these amortization charges were classified as acquisition-related expenses. Prior year balances have been reclassified to allow for comparability across periods.

<sup>7)</sup> Represents operating expenses divided by operating revenues.

# Outlook

## We expect operating profit to exceed €9.5 billion in 2006

Due to the strong business performance in the third quarter and the first nine months of this year, we are now confident of achieving an operating profit of greater than €9.5 billion in 2006. We further expect that our net income will grow above €6 billion, after restructuring charges of up to €350 million in the fourth quarter of this year at Dresdner Bank for its “Neue Dresdner Plus program”. However, as always, natural catastrophes and adverse developments in the capital markets, as well as the factors stated below in the cautionary note regarding forward looking statements, may severely impact our profitability.

### Cautionary Note Regarding Forward-Looking Statements

The statements contained herein may include statements of future expectations and other forward-looking statements that are based on management’s current views and assumptions and involve known and unknown risks and uncertainties that could cause actual results, performance or events to differ materially from those expressed or implied in such statements. In addition to statements which are forward-looking by reason of context, the words “may”, “will”, “should”, “expects”, “plans”, “intends”, “anticipates”, “believes”, “estimates”, “predicts”, “potential”, or “continue” and similar expressions identify forward-looking statements.

Actual results, performance or events may differ materially from those in such statements due to, without limitation, (i) general economic conditions, including in particular economic conditions in the Allianz Group’s core business and core markets, (ii) performance of financial markets, including emerging markets, (iii) the frequency and severity of

insured loss events, (iv) mortality and morbidity levels and trends, (v) persistency levels, (vi) the extent of credit defaults, (vii) interest rate levels, (viii) currency exchange rates including the euro/US dollar exchange rate, (ix) changing levels of competition, (x) changes in laws and regulations, including monetary convergence and the European Monetary Union, (xi) changes in the policies of central banks and/or foreign governments, (xii) the impact of acquisitions, including related integration issues, (xiii) reorganization measures, and (xiv) general competitive factors, in each case on a local, regional, national and/or global basis. Many of these factors may be more likely to occur, or more pronounced, as a result of terrorist activities and their consequences.

The matters discussed herein may also be affected by risks and uncertainties described from time to time in Allianz SE’s filings with the U.S. Securities and Exchange Commission. The company assumes no obligation to update any forward-looking statement.

### Operating Profit Methodology and Reconciliation of Total Revenue Growth

The previous analysis is based on our consolidated financial statements and should be read in conjunction with those statements. We evaluate the results of our Property-Casualty, Life/Health, Banking, Asset Management and Corporate segments using a financial performance measure we refer to herein as “operating profit”. We define our segment operating profit as income before income taxes and minority interests in earnings, excluding, as applicable for each respective segment, all or some of the following items: income from financial assets and liabilities held for trading (net), realized gains/losses (net), impairments of investments (net), amortization of intangible assets, acquisition-related expenses and restructuring charges.

While these excluded items are significant components in understanding and assessing our consolidated financial performance, we believe that the presentation of operating results enhances the understanding and comparability of the performance of our segments by highlighting net income attributable to ongoing segment operations and the underlying profitability of our businesses. For example, we believe that trends in the underlying profitability of our segments can be more clearly identified without the fluctuating effects of the realized gains/losses or impairments of investments, as these are largely dependent on market cycles or issuer specific events over which we have little or no control, and can and do vary, sometimes materially, across periods. Further, the timing of sales that would result in such gains or losses is largely at our discretion. Operating profit is not a substitute for income before income taxes and minority interests in earnings or net income as determined in accordance with International Financial Reporting Standards (or “IFRS”). Our definition of operating profit may differ from similar measures used by other companies, and may change over time. For further information on operating profit, as well as the particular reconciling items between operating profit and net income, see Note 3 to our consolidated financial statements.

In the previous analysis, we analyze the Allianz Group’s consolidated results of operations for the three months ended September 30, 2006 as compared to the three months ended September 30, 2005, as well as for the nine months ended September 30, 2006 as compared to the nine months ended September 30, 2005, using operating profit and net income as the relevant performance measures, as permitted under IFRS.

We further believe that an understanding of our total revenue performance is enhanced when the effects of foreign currency translation as well as acquisitions and disposals (or “changes in scope of consolidation”) are excluded. Accordingly, in addition to presenting “nominal growth”, “internal growth”, which excludes the effects of foreign currency translation and changes in scope of consolidation, is also provided. The following tables set forth the reconciliation of nominal total revenue growth to internal total revenue growth for each of our segments and the Allianz Group as a whole.

### Composition of Total Revenue<sup>1)</sup> Growth for the Three Months Ended September 30, 2006

Segment <sup>2)</sup>	Nominal growth %	Changes in scope of consolidation %	Foreign currency translation %	Internal growth %
<b>Property-Casualty</b>	0.4	(0.2)	(1.2)	1.8
<b>Life/Health</b>	(11.8)	–	(0.9)	(10.9)
<b>Banking</b>	5.7	–	(0.2)	5.9
thereof:				
Dresdner Bank	0.7	–	(0.2)	0.9
<b>Asset Management</b>	2.3	(0.6)	(3.4)	6.3
thereof: Allianz Global Investors	2.4	(0.6)	(3.4)	6.4
<b>Allianz Group</b>	<b>(5.1)</b>	<b>–</b>	<b>(1.1)</b>	<b>(4.0)</b>

### Composition of Total Revenue<sup>1)</sup> Growth for the Nine Months Ended September 30, 2006

Segment <sup>2)</sup>	Nominal growth %	Changes in scope of consolidation %	Foreign currency translation %	Internal growth %
<b>Property-Casualty</b>	0.4	(0.2)	0.1	0.5
<b>Life/Health</b>	(1.5)	–	0.8	(2.3)
<b>Banking</b>	14.2	–	0.1	14.1
thereof:				
Dresdner Bank	14.6	–	0.1	14.5
<b>Asset Management</b>	14.9	(0.6)	1.2	14.3
thereof: Allianz Global Investors	14.8	(0.7)	1.2	14.3
<b>Allianz Group</b>	<b>0.7</b>	<b>–</b>	<b>0.4</b>	<b>0.3</b>

<sup>1)</sup> Total revenues comprise Property-Casualty segment’s gross premiums written, Life/Health segment’s statutory premiums, Banking segment’s operating revenues and Asset Management segment’s operating revenues.

<sup>2)</sup> Before the elimination of transactions between Allianz Group companies in different segments.

## Notes to the Consolidated Financial Statements

### 1 Basis of presentation

The consolidated financial statements have been prepared in conformity with International Financial Reporting Standards ("IFRS") as adopted under European Union regulations in accordance with clause 315a of the German Commercial Code ("HGB"). Since 2002, the designation IFRS applies to the overall framework of all standards approved by the International Accounting Standards Board. Already approved standards continue to be cited as International Accounting Standards. For years through 2004, IFRS did not provide specific guidance concerning the reporting of insurance and reinsurance contracts. Therefore, as envisioned in the IFRS Framework, the provisions embodied under accounting principles generally accepted in the United States of America have been applied. The financial statements are presented in million Euros (€ mn).

### 2 Changes in the presentation of the consolidated financial statements

The Allianz Group comprehensively reviewed its financial reporting methodology to improve the transparency of its financial results and ensure consistency with its peers. As a result of this review, the Allianz Group implemented numerous revisions to its financial reporting that were effective on January 1, 2006 with the exception of the reclassification of income from industrial holdings and expenses from industrial holdings that have been implemented during the third quarter of 2006. The Allianz Group's financial reporting reflects reclassifications in the consolidated balance sheet and consolidated income statement, changes to segment reporting, changes to operating profit methodology and changes to the cash flow statement that reflects the continuous review of our evolving business.

#### Reclassifications

A significant portion of these revisions to financial reporting resulted from the implementation of changes to the presentation of certain financial information of the Allianz Group's consolidated balance sheet and consolidated income statement. These revisions were implemented to improve transparency and result in the following:

- \_The line items in the consolidated income statement include aggregations of items which are similarly aggregated as the line items utilized for determining operating profit.
- \_The line items in the consolidated income statement include aggregations of items that allow the Allianz Group's key performance indicators to be directly derived from the Allianz Group's external financial results.
- \_The line items in the consolidated income statement include aggregations of items which are based more on the nature rather than the function.

\_The line items in the consolidated balance sheet include aggregations of items which are consistently presented within the line items in the consolidated income statement.

\_The line items in the consolidated balance sheet are relatively displayed in a liquidity format as required by IAS 1.

As a result, the Allianz Group's previously reported consolidated balance sheets and consolidated income statements were reclassified to ensure consistency and comparability with the presentation as implemented on January 1, 2006. These reclassifications did not have an impact on the Allianz Group's net income or shareholders' equity for any previously reported period.

For a summary of key changes to the previous presentation in the Allianz Group's consolidated balance sheets and the impact of these reclassifications on the consolidated balance sheet as of December 31, 2005, see the interim report for the first or second quarter of 2006.

The key changes to the previous presentation in the Allianz Group's consolidated income statements are:

- \_Interest and similar income includes share of earnings from investments in associates and joint ventures.
- \_Realized gains and realized losses are presented net as a separate line item. Realized gains/losses (net) include realized gains and losses from disposals of associates and subsidiaries and loans and advances to banks and customers.
- \_Income from industrial holdings and expenses from industrial holdings are presented as separate line items in the consolidated income statements. Industrial holdings include the Four Seasons Health Care Ltd., Wilmslow and MAN Roland Druckmaschinen AG, Offenbach.
- \_Impairments and reversals of impairments are presented net as a separate line item. Impairments of investments (net) include impairments and reversals of impairments of investments in associates and joint ventures.
- \_Changes in reserves for insurance and investment contracts (net) are presented as a separate line item.
- \_Fee and commission expenses and investment expenses are presented as separate line items.
- \_Foreign currency gains and losses and depreciation of real estate held for investment are included in investment expenses.
- \_Amortization of intangible assets includes amortization of intangible assets previously included in other expenses.
- \_Restructuring charges are presented as a separate line item. Restructuring charges were previously presented in other expenses.
- \_Acquisition and administrative expenses (net) include a significant portion of the amounts previously reported in other income and other expense. Acquisition and administrative expenses (net) include other taxes previously included in taxes.

Summary of the impact of the reclassifications on the consolidated income statement for the three and nine months ended September 30, 2005:

	Three months ended		Nine months ended

## Segment Reporting

Effective January 1, 2006, the Allianz Group introduced a Corporate segment. The Corporate segment includes all group activities which are not allocated to a specific subsidiary. Further, the Corporate segment includes group funding and risk management activities, such as the senior bonds, subordinated bonds and money market securities issued or guaranteed by Allianz SE and the related derivative financial instruments held by Allianz SE or one of its subsidiaries. The activities included in the Corporate segment were previously reported in the Property-Casualty segment.

In addition, the Allianz Group reclassified its life and health reinsurance assumed business to the Life/Health segment. This business was previously reported in the Property-Casualty segment.

Finally, the Allianz Group revised the presentation of elimination for intra-Allianz Group dividends. Intra-Allianz Group dividends are now eliminated by the subsidiary receiving the dividend. Intra-Allianz Group dividends were previously eliminated within the segment if the dividend involved subsidiaries within the same segment or eliminated in the consolidation adjustments if the dividend involved subsidiaries in different segments.

The effects of all of these changes to segment reporting were implemented retrospectively; therefore, all previously reported segment balance sheets and segment income statements were reclassified to ensure consistency and comparability with the presentation as implemented on January 1, 2006.

## Operating Profit Methodology

As a result of the reclassifications and changes in segment reporting, as well as improving the consistency of external financial reporting with internal financial reporting, the methodology for defining operating profit was changed effective January 1, 2006. A summary of the key changes is as follows:

- \_Amortization of intangible assets and restructuring charges, except for the operating restructuring charges for the Life/Health segment, are non operating items for all segments.
- \_Realized gains/losses (net) from investments, shared with policyholders and impairments of investments (net), shared with policyholders are included in operating profit for the Property-Casualty and Life/Health segment.
- \_The policyholder participation in tax income/tax expenses on premium refunds arising in connection with tax exempted income/expenses is, similar to the recognition of premium refunds, presented in Life/Health segment as operating profit.

Summary of the impact of the changes to operating profit by segment for the three and nine months ended September 30, 2005:

Three months ended September 30, 2005	Operating profit as previously reported € mn	Changes € mn	Operating profit € mn
Property-Casualty	696	296	992
Life/Health	478	78	556
Banking	250	2	252
Asset Management	299	1	300
Corporate	-	(223)	(223)
Consolidation adjustments	-	(13)	(13)
<b>Allianz Group</b>	<b>1,723</b>	<b>141</b>	<b>1,864</b>

Nine months ended September 30, 2005	Operating profit as previously reported € mn	Changes € mn	Operating profit € mn
Property-Casualty	3,090	766	3,856
Life/Health	1,283	262	1,545
Banking	759	(63)	696
Asset Management	785	(2)	783
Corporate	-	(680)	(680)
Consolidation adjustments	-	(103)	(103)
<b>Allianz Group</b>	<b>5,917</b>	<b>180</b>	<b>6,097</b>

## Cash Flow Statement

As a result of the reclassifications to the consolidated balance sheet and consolidated income statement discussed above, the Allianz Group made corresponding reclassifications to the consolidated statements of cash flows. In addition, the Allianz Group reclassified the following line items from operating activities to investing or financing activities in order to consistently present changes in interest-bearing assets and liabilities:

- \_Loans and advances to banks and customers are reclassified as investing activities.
- \_Liabilities to banks and customers are reclassified as financing activities.
- \_Aggregate policy reserves for universal-life type insurance and investment contracts are reclassified as financing activities.
- \_Certificated liabilities are reclassified as financing activities.

### Industrial holdings

As described in note 2 previously, during the third quarter of 2006, income from industrial holdings and expenses from industrial holdings were included as separate line items in the consolidated income statements. This change has been implemented retrospectively for comparability. A summary of the impact of these changes on previously released consolidated income statements is as follows:

	Three months ended March 31, 2006 € mn	Three months ended June 30, 2006 € mn	Six months ended June 30, 2006 € mn	Three months ended March 31, 2005 € mn	Three months ended June 30, 2005 € mn	Six months ended June 30, 2005 € mn
Interest and similar income	(8)	(17)	(25)	(11)	(4)	(15)
Fee and commission income	(151)	(152)	(303)	(124)	(144)	(268)
Income from industrial holdings	159	169	328	135	148	283
Interest expense	34	16	50	20	19	39
Acquisition and administrative expenses (net)	17	25	42	15	(15)	–
Fee and commission expenses	110	112	222	91	132	223
Other expenses	–	–	–	7	5	12
Expenses from industrial holdings	(161)	(153)	(314)	(133)	(141)	(274)

<sup>1)</sup> Represents fee and commission income less fee and commission expense.

<sup>2)</sup> Represents interest and similar income less interest expense and investment expenses.

<sup>3)</sup> For the Asset Management segment, total revenues are measured based upon operating revenues.

<sup>4)</sup> The total of these items equals acquisition and administration expenses (net) in the segment income statement.

<sup>5)</sup> Consists of retention payments for the management and employees of PIMCO and Nicholas Applegate. These retention payments largely expired in 2005.

<sup>6)</sup> Consists of amortization charges relating to capitalized bonuses for PIMCO management. These amortization charges expired in 2005. Until December 31, 2005, these amortization charges were classified as acquisition-related expenses. Prior year balances have been reclassified to allow for comparability across periods.

<sup>7)</sup> Represents operating expenses divided by operating revenues.

### 37 Earnings per share

Basic earnings per share is computed by dividing net income by the weighted average number of common shares outstanding for the period. Diluted earnings per share reflects the effect of dilutive securities. Dilutive securities include participation certificates issued by Allianz SE which can potentially be converted to Allianz shares, warrants issued by Allianz SE, share-based compensation plans, and derivatives on own shares.

	Three months ended September 30,		Nine months ended September 30,	
	2006 € mn	2005 € mn	2006 € mn	2005 € mn
<b>Numerator for basic earnings per share (net income)</b>	<b>1,591</b>	<b>794</b>	<b>5,649</b>	<b>3,508</b>
Effect of dilutive securities	(1)	2	3	2
<b>Numerator for diluted earnings per share (net income after assumed conversion)</b>	<b>1,590</b>	<b>796</b>	<b>5,652</b>	<b>3,510</b>
<b>Denominator for basic earnings per share (weighted-average shares)</b>	<b>405,197,435</b>	<b>390,716,685</b>	<b>405,248,299</b>	<b>384,869,124</b>
<b>Dilutive securities:</b>				
Participation certificates	1,469,443	1,469,443	1,469,443	1,469,443
Warrants	620,478	468,396	632,466	505,468
Share-based compensation plans	79,939	691,171	796,999	689,585
Derivatives on own shares	2,837,515	–	4,642,666	–
<b>Subtotal</b>	<b>5,007,375</b>	<b>2,629,010</b>	<b>7,541,574</b>	<b>2,664,496</b>
<b>Denominator for diluted earnings per share (weighted-average shares after assumed conversion)</b>	<b>410,204,810</b>	<b>393,345,695</b>	<b>412,789,873</b>	<b>387,533,620</b>
Basic earnings per share	3.93	2.03	13.94	9.11
Diluted earnings per share	3.88	2.02	13.69	9.06

For the nine months ended September 30, 2006, the weighted average number of shares excludes 791,701 (2005: 2,758,450) treasury shares.

The 25.1 million Allianz SE shares issued on October 13, 2006 in connection with the merger of RAS Holding S.p.A. into Allianz AG have no effect on earnings per share, as they were not outstanding as of September 30, 2006.

### 40 Other information

#### Number of employees

The Allianz Group had a total of 166,960 (2005: 177,625) employees as of September 30, 2006. 77,302 (2005: 72,195) of these were employed in Germany and 89,658 (2005: 105,430) in other countries. The number of employees undergoing training decreased by 247 to 3,776.

## 41 Subsequent events

On October 13, 2006, the merger of RAS Holding S.p.A. into Allianz AG became effective. Simultaneously, Allianz AG changed its legal form to a Societas Europaea ("SE") and is now called Allianz SE. Allianz SE issued approximately 25.1 million Allianz SE shares to the shareholders of RAS Holding S.p.A in connection with the merger.

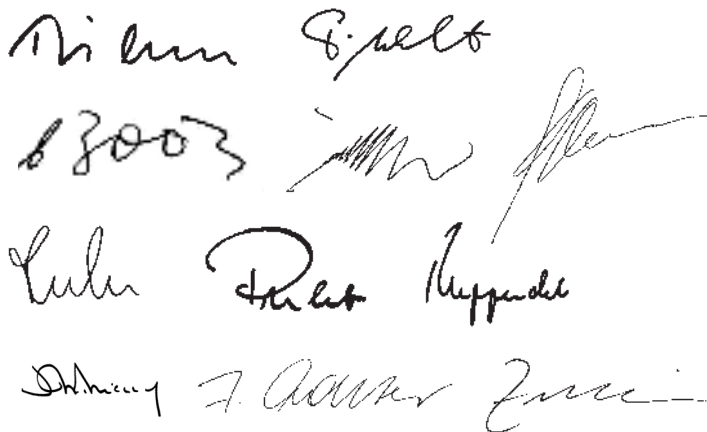

On October 27, 2006, the Industrial and Commercial Bank of China Ltd. ("ICBC"), in which the Allianz Group had an pre-IPO ownership interest of 2.5%, completed its initial public offering on the Shanghai and Hong Kong Stock Exchanges. Prior to the initial public offering, the Allianz Group measured its investment in ICBC at cost, of approximately €826 million, as fair value was not reliably measured. As a result of the initial public offering, the Allianz Group will measure its investment in ICBC at fair value as it is reliably measurable. At the closing of trading on October 27, 2006, the market value of the Allianz Group's ownership interest in ICBC was €2,285 million; however, this market value is in excess of fair value due to the restriction on the disposal of this ownership interest.

On October 27, 2006, Allianz Infrastructure Holdings Limited, a wholly-owned subsidiary of the Allianz Group, announced its intention to make a cash takeover offer to acquire John Laing plc ("Laing"). Based on an acceptance rate of 100% the transaction volume will be approximately £957.4 million (or approximately €1,428 million).

Munich, November 9, 2006
